GENERAL EXCHANGE SERVICE TARIFFS

APPLICATION AND EXPLANATION OF SYMBOLS

A. APPLICATION

These Tariffs apply to the General Telephone Exchange Services of the Brandenburg Telephone Company, hereinafter referred to as the Telephone Company, in Exchanges of the Telephone Company in Brandenburg, Kentucky. In the event of any conflict between any rate, rule or regulation contained in these General Exchange Service Tariffs and any rate, rule or regulation contained in the Local Exchange Service Tariffs, the rate, rule or regulation contained in the Local Exchange Service Tariff shall apply.

The provision of services and facilities, as provided herein, is subject to the General Rules and Regulations of the Telephone Company, which General Rules and Regulations as they now exist or as they may be revised, added to or supplemented by superseding issues are hereby made a part of these General Exchange Service Tariffs.

These Tariffs cancel and supersede all other Tariffs of the Telephone Company issued and effective prior to the effective date of these Tariffs.

B. EXPLANATION OF SYMBOLS

(C) Signifies a changed regulation.

(D) Signifies a discontinued rate, treatment or regulation.

(I) Signifies an increased rate or new treatment resulting in increased rate.

(N) Signifies a new rate, treatment or regulation.

(R) Signifies a reduced rate or new treatment resulting in reduced rate.

(T) Signifies a change in text but no change in rate, treatment or regulation.

GENERAL EXCHANGE SERVICE TARRIFFS

SERVICE CONNECTION CHARGES

A. GENERAL

1. The term "Service Connection Charges" is used to define the non-refundable charge made for the establishment of a class of telephone service or subsequent additions to that service.

2. No distinction is made between a "New Installation" and an "Outside Move." All changes of subscribers' equipment or service from one premises to another are treated as new service connections with Service Connection Charges applying. (For definition of "Premises" see "Definitions" under General Rules and Regulations, Part I.) (T)

3. Service Connection Charges are in addition to any other schedules rates and charges normally applying under the tariffs. They apply in addition to and not in lieu of Mileage Charges, Installation Charges, or Construction Charges made because of unusual costs in establishing service.

4. Service Connection Charges may be payable at the time application is made for the particular service or facility, and prior to the establishment of service, or upon presentation of a bill. Service may be established in advance of payment in the case of Service Connection Charges for additions to the service of existing subscribers and in the case of any service for Departments, Administrations, and Agencies of the Federal, State, County, Township or Municipal Governments.

B. CHARGES

1. Service Connection Charges apply as follows:

(b) CENTRAL OFFICE CHARGE shall apply to request for service where connections must be established or changed in the Central Office or PABX equipment.

That charge being $ 3.50 (each order)

(c) A PREMISE VISIT CHARGE shall apply when at the request of the subscriber or by actions of the subscriber a company employee is dispatched to the customers premise to complete a service request.

That charge being $ 14.00 (each request)

(d) LINE OR DROP CHARGE shall apply to request for service where installation or moving service wire, protector or network interface is required.

That charge being $ 7.00 (each line)

(e) SECURITY CONDUIT CHARGE shall apply when the subscriber request (because of a dial up alarm reporting system or other reasons) that the aerial drop wire serving their premise be enclosed in conduit from the protector/interface to a height that a person standing without the aid of a ladder could eaisly cut. Maximum size of conduit one half (½) inch and maximum length ten (10) feet. Longer length or larger size conduit may be installed on a per cost basis. The subscriber must request the installation of security conduit proir to the dispatching of the installer. NOTE: On certain type low structures the conduit may not be extended to a height that the wire can not be cut. All protector/interfaces shall be installed according to REA specifications at a height not less than three (3) feet and not more than five (5) feet. All protector/interfaces shall be installed in accordance to regulations shown in other parts of this tariff. (N)

That charge being $ 18.50 (each installation) (N)

GENERAL EXCHANGE SERVICE TARIFFS

NETWORK INTERFACE

PUBLIC SERVICE COMMISSION
OF KENTUCKY
EFFECTIVE
JAN 01 1997
PURSUANT TO 807 KAR 5:011,
SECTION 9 (1)
BY: J. Gleaghegan

A. DEFINITION AND REQUIREMENTS

1. The NETWORK INTERFACE is the point of interconnection between the telephone company facilities (regulated) and the subscriber or customer's wiring (unregulated). The NETWORK INTERFACE and DEMARCATION POINT have same meaning. (N)

2. In the absence of a distinct or definable network interface or demarcation point the station protector shall be defined as the network interface/demarcation point.

3. All Network interfaces installed after 1-1-87 will be installed in such a way as to allow easy access for customer performed trouble isolation. Normally this will be a RJ11 jack but could be any F.C.C. approved jack, this will be the telephone company's option as to type jack used.

4. Customers who report trouble with their service and a company employee isolates the trouble to the customer's side of the network interface, that customer will be billed the maintenance service call as shown in PART II sheet 9A of this tariff. When the company incorrectly identifies a service problem as being the customer's responsibility, then the company will reimburse the customer for any reasonable expenses incurred. The amount reimbursed will not exceed the amount of the maintenance of service call as shown in PART II 9A in this tariff. All claims must be in writing and accompanied by a copy of the bill provided by a company that is in the business of offering maintenance of inside wire service to the public.

5. The company will provide facilities to the first point (demarcation/network interface in or next to station protector) on the customer's premises which, in the judgment of the company, is suitable for the location of a network interface. The most economical route from existing network distribution facilities will generally determine the approach used in establishing the point-of-demarcation. The customer may designate an alternate approach route for the entrance facilities at additional charges on a per cost basis. Route selection and location of point-of-demarcation must be in compliance with the latest edition of the National Electric Code, F.C.C. Part 68 and regulations of this tariff.

6. Customers who had distinct and definable network interface installed before 1-1-87 may continue to use the interface at its persent location until there is a need for the wiring to be changed or rearranged. (N)

ISSUED by Authority of an order of the Public Service Commission in Case No. 305

Dated 12-24, 19 86.

GENERAL EXCHANGE SERVICE TARIFFS

NETWORK INTERFACE (Continued)

A. DEFINITION AND REQUIREMENTS (Continued)

7. To further define "suitable" as stated in PART II Sheet 11.1 A. 5. of this tariff. A "suitable" location for the protector/interface shall also mean outside the subscribers's buildings in an area where the telephone employees may enter at anytime to do testing or repair in the event no one is home. (N)

PUBLIC SERVICE COMMISSION OF KENTUCKY EFFECTIVE JAN 07 1988 PURSUANT TO 807 KAR 5:011 SECTION 9 (1) BY: [signature] PUBLIC SERVICE COMMISSION MANAGER

8. To further define "suitable" as stated in PART II Sheet 11.1 A. 5. of this tariff. If the subscriber's building falls under PART II Sheet 8.3 B. (g) of this tariff (a pole is required) then "suitable" shall mean that the protector/interface will be attached to this pole. This pole shall be located in an area where the telephone employees may enter at anytime to do testing or repair in the event no one is home.

9. In special cases, commerical buildings may seek an exemption from the outside location of the protector/interface, provided the following specifications are met. (a) The owner of the building provides conduit for the entrance cable from a point outside the building (this point being approved by the telephone company) to the housing (case) of the protector/interface. (b) The protector/interface to be located in an area set aside for this purpose. This area to be a safe place for telephone employees to work, free of exposure to chemicals, elevated electrical voltage, noise, etc... (c) Telephone employees must have free access to this area at anytime to do testing or repair. (d) The general public should not have access to this area.

10. After the initial installation of the protector/interface, should conditions at the location of the protector/interface change, such as the protector/interface or its unshielded supply wire being enclosed in new construction, should the area become unsafe for the telephone employees to work, telephone employees are being denied access, the use of the area around the protector/interface changes and the presence of the protector/interface could be a safety hazard to the building or to it's occupants, or the protector/interface itself could become damaged. The telephone company will move the protector/interface to a "suitable" location and bill the subscriber the appropriate charges as shown elsewhere in this tariff.

11. If a telephone company employee is dispatched to fill a service request or repair a trouble (and the subscriber is aware of the impending visit) and is denied access to the area where the protector/interface is located, the telephone company may bill the subscriber a premise visit charge as shown elsewhere in this tariff and no credit for interrupted service will be allowed. INSIDE MOVES AND CHANGES

A. General

1. The charges specified herein for inside moves and changes do not contemplate work being performed by the Telephone Company employees involved at a time when overtime wages apply, due to the request of the customer, nor does it contemplate work once begun being interrupted by the customer. If the customer requests that overtime labor be performed or interrupts work once begun, an additional charge, based on the additional costs involved, applies.

2. For definition of the term "Premises" see definitions section under General Rules and Regulations, PART I.

GENERAL EXCHANGE SERVICE TARIFF
LINK-UP-KENTUCKY SERVICE CONNECTION CHARGES

A. GENERAL

1. Link-Up-Kentucky is offered in all exchanges to provide subsidized assistance to qualifying applicants. It is intended to preserve and promote subscribership among low income households by providing a credit to the installation and connection charges applicable to the provisioning of residence service.

(T)

B. Eligibility

1. To be eligible for a Link-Up-Kentucky credit, a customer must be a current recipient of any one of the following low income assistance programs.

   1. Supplemental Security Income (SSI)
   2. Food Stamps
   3. Medicaid
   4. Federal public housing/Section 8
   5. Low Income Home Energy Assistance Program (LIHEAP)

2. All applications for service are subject to verification with the state agency responsible for administration of the qualifying program.

C. Certification

1. Proof of eligibility in any of the qualifying low income programs should be provided to the Company at the time of application for service. The Lifeline credit will not be established until proof of eligibility has been received by the Company. If the customer request installation prior to the Company's receipt of proof of eligibility, the requested service will be provided without the Lifeline credit. When eligibility documentation is provided subsequent to installation, the Lifeline credit will be provided on a going forward basis.

2. Proof of eligibility shall be in the form of an affidavit, certifying under penalty of perjury, that the subscriber is receiving benefits under one of the qualifying programs. It is the customer's responsibility to notify the Company when the customer is no longer participating in any of the qualifying programs.

3. The Company reserves the right to periodically audit its records working in conjunction with the appropriate state agencies, for the purpose of determining continuing eligibility. Information obtained during such audit will be treated as confidential information to the extent required under State and Federal laws. The use of disclosure of information concerning enrollees will be limited to the purpose directly connected with the administration of the Link-Up-Kentucky plan.

GENERAL EXCHANGE SERVICE TARIFF
LINK-UP-KENTUCKY SERVICE CONNECTION CHARGES (continued)

4. When a customer is determined to be ineligible as a result of an audit, the Company will contact the customer. If the customer cannot provide eligibility documentation, the Link-Up-Kentucky credit will be discontinued. (T)

(T)

C. RATES AND CHARGES

1. A nonrecurring credit in the amount of one-half (maximum of $30.00) of the installation and connection charges will be applied to the subscribers total nonrecurring installation and connection charge.

PUBLIC SERVICE COMMISSION OF KENTUCKY
EFFECTIVE
JAN 01 1998
PURSUANT TO 807 KAR 5:011, SECTION 9 (1)
BY: Stephanie Bell
SECRETARY OF THE COMMISSION

GENERAL EXCHANGE SERVICE TARIFF
LIFELINE

A. DESCRIPTION OF SERVICES

1. The Lifeline program is designed to increase the availability of telecommunications services to low income subscribers by providing a credit to monthly recurring local service for qualifying residential subscribers. Basic terms and conditions are in compliance with the FCC's Order on Universal Service in CC Docket 97-157, which adopts the Federal-State Joint Board recommendation in CC Docket 96-45, which complies with the Telecommunications Act of 1996. Specific terms and conditions are as prescribed by the Kentucky Public Service Commission and are set forth in this tariff.

2. Lifeline is supported by the federal universal support mechanism.

3. Federal baseline support of $8.25 is available for each Lifeline service and is passed through to the subscriber. The amount of credit will not exceed the charge for local service, which includes the access line, the Subscriber Line Charge and local usage. (I)

B. Regulations

1. General

a. Customers eligible under the Lifeline program are also eligible for connection assistance under the Link-Up program.

b. One low income credit is available per household and is applicable to the primary residential connection only.

c. A Lifeline customer may subscribe to any local service offering available to other residence customers.

d. Toll blocking, if elected, will be provided at no charge to Lifeline subscriber.

e. The deposit requirement is not applicable to a Lifeline customer who subscribes to toll blocking. If a Lifeline customer removes toll blocking prior to establishing an acceptable credit history, a deposit may be required. When applicable, advance payments will not exceed the connection and local service charges for one month.

f. The federal primary interexchange carrier charge (PICC) will not be billed to Lifeline customers who subscribe to toll blocking and do not presubscribe to a long distance carrier.

ISSUED by Authority of an order of the Public Service Commission in Case No. ADM 360

BY _____ EXECUTIVE DIRECTOR

GENERAL EXCHANGE SERVICE TARIFF
LIFELINE (continued)

(N)

B. Regulations (continued)

g. A Lifeline subscriber's local service will not be disconnected for non-payment of regulated toll charges. Local service may be denied for non-payment of local and miscellaneous service in accordance with other parts of this Tariff. Access to toll service may be denied for non-payment of regulated tolls. A Lifeline subscriber's request for reconnection of local service will not be denied if the service was previously denied for non-payment of toll charges.

h. Lifeline is not available for resale.

2. Eligibility

a. To be eligible for a Lifeline credit, a customer must be a current recipient of any one of the following low income assistance programs.

1. Supplemental Security Income (SSI)
2. Food Stamps
3. Medicaid
4. Federal public housing/Section 8
5. Low Income Home Energy Assistance Program (LIHEAP)

b. All applications for service are subject to verification with the state agency responsible for administration of the qualifying program.

3. Certification

a. Proof of eligibility in any of the qualifying low income programs should be provided to the Company at the time of application for service. The Lifeline credit will not be established until proof of eligibility has been received by the Company. If the customer request installation prior to the Company's receipt of proof of eligibility, the requested service will be provided without the Lifeline credit. When eligibility documentation is provided subsequent to installation, the Lifeline credit will be provided on a going forward basis.

b. Proof of eligibility shall be in the form of an affidavit, certifying under penalty of perjury, that the subscriber is receiving benefits under one of the qualifying programs. It is the customer's responsibility to notify the Company when the customer is no longer participating in any of the qualifying programs.

LIFELINE (continued)

B. Regulations (continued)

c. The Company reserves the right to periodically audit its records, working in conjunction with appropriate state agencies, for the purpose of determining continuing eligibility. Information obtained during such audit will be treated as confidential information to the extent required under State and Federal laws. The use of disclosure of information concerning enrollees will be limited to purposes directly connected with the administration of the Lifeline plan.

d. When a customer is determined to be ineligible as a result of an audit, the Company will contact the customer. If the customer cannot provide eligibility documentation, the Lifeline credit will be discontinued

e. The credit is to be funded by State and Federal governments. In the event the full $13.50 credit (I)
is not taken, any lesser amount will be prorated on the basis of two parts from the state fund to one part from the federal fund for amounts in excess of $8.25. (I)

f. Lifeline credit only applies to the total of the basic local service charge and the federal subscriber line charge.

C. Rates and Charges

1. General

a. Lifeline is provided as a monthly credit on the eligible residential subscriber's access line bill for basic local service.

b. Service charges in other parts of this tariff are applicable for installing or changing Lifeline service.

c. Link-Up connection assistance in Part II may be available for installing or relocating Lifeline service.

d. Service charges do not apply for converting existing service to Lifeline.

b. An installation charge equal to the cost of labor required to install such loops applies to each loop in lieu of a Service Connection Charge. The minimum installation charge shall be those applicable service connection charge shown in PART II sheet 8.1, 8.2, and 8.3.

c. Other equipment, if required, will be furnished at a rate Based Upon Cost.

d. For a local loop extending outside the Base Rate Area, mileage charges shall be applicable according to the schedule given under "Mileage Charges" in Part II of this Tariff for an Individual Line.

e. The interexchange channel required to provide the above services will be furnished where facilities are available, at the mileage rate for Individual Line given under "Mileage Charges" in Part II of this Tariff. Measurement on an air-line basis is from each exchange to the point of connection between the exchanges for the channel provided.

2. Channels for services not specifically named elsewhere in these Tariffs, and for purposes other than telephonic communication, will be furnished where facilities are available and where in the judgment of the Telephone Company the use to be made of such Channels is not contrary to regulations.

	Monthly Rates	
a. Channels for P.B.X. tie lines, or alarm circuits, and like purposes, first half-mile or fraction thereof circuit measurement	~~$ 5.00~~	(I)

3. Where interexchange facilities of another Telephone Company are required to complete a special circuit, the charges for the facilities of the other Telephone Company will be based upon the contractual agreements between the two telephone companies for this service, but in no event will the charges to the subscriber for the Telephone Company's portion of the facilities be less than that provided for by this regulation.

4. Where Special Circuits are required on a temporary basis, i.e., for only one month or less, the Service Connection Charge shall be equal to the cost of labor to install and remove such channels, plus the cost of the materials required. The minimum charge for such temporary service connection will be $ 10.00 .

5. Where Special Circuits are required on a temporary basis, i.e., for only one month or less, the monthly rate for the service shall be pro-rated on the basis of the time actually used, but in no case shall the total charge be less than one-fourth the amount that would be charged for an entire month's service.

Z4 DUPLICATE BILLS

1. GENERAL

Each subscriber will be rendered a bill each billing period for local, toll and other miscellaneous services provided by the telephone company. Those subscribers desiring additional or duplicate bills may request them according to the following regulations and rates. (N)

2. REGULATIONS

(a) Duplicate bill may be issued for residence, business or semi-public telephone service.

(b) Because of the personal nature of a telephone bill, only the subscriber or those authorized by the subscriber can receive a duplicate bill.

(c) Because of purged or changed information a duplicate bill cannot be printed after the original bill is paid or a new bill is rendered for the next billing period.

(d) Requesting a duplicate bill does not release the subscriber of the obligation of paying that bill in the required time frame of that billing period.

(e) There shall not be a charge for a duplicate bill when the subscriber did not receive or lost the original bill.

3. RATES

(a) Duplicate bill each	$ 3.15
(b) Mailing duplicate bill each	.50

E. DIRECT INWARD DIALING (DID) SERVICE (N)

1. RULES AND REGULATIONS

a. DID service permits calls incoming to a PBX or other customer premises equipment to reach a specific station line number without the assistance of an attendant. DID service is provided subject to the availability of facilities and shall be furnished from the central office which regularly services the area in which the customer is located or from a foreign central office equipped to provide DID service subject to the appropriate Company intra and interexchange rates.

b. Rates are in addition to the rates shown elsewhere in this tariff for services and equipment with which this offering is associated.

c. The service includes central office switching equipment necessary for in-dialing from the network directly to station lines associated with customer premises switching equipment.

d. The service must be provided on all trunks in a group arranged for inward service. Each trunk group shall be considered a separate service. Overflow or trunk hunting will not be provided between separate trunk groups.

e. Facilities and operational characteristics of interface signals between the Company-provided connecting arrangements and the customer-provided switching equipment must conform to the rules and regulations the Company considers necessary to maintain proper standards of service.

f. One primary directory listing will be furnished without charge for each separate trunk group. Additional listings can be obtained as specified elsewhere in this tariff.

g. The customer shall be responsible for interception of all calls to vacant and non-working assigned DID numbers by means of an attendant or interceptor recorded announcement service.

h. DID numbers are provided in blocks consisting of a minimum twenty (20) consecutive numbers which may be assigned to station lines or reserved for future use at rates specified herein. The Company does not guarantee to provide a number block. The Company will be responsible for interception and administration of reserved numbers. (N)

ACCESS LINE SERVICE FOR CUSTOMER-PROVIDED
OR PAYPHONE SERVICE PROVIDER PUBLIC TELEPHONES

(T)

A. Definition

1. The Company provides Access Line Service for the provision of Public Telephone Service to Payphone Service providers ("PSP") including the nonregulated operations of the Company.

B. General

1. Access Line Service for PSP Public Telephones is an exchange line provided at the request of a subscriber for telecommunications used by the general public.

2. Access Line Service is provided on a flat rate basis.

3. Access Line Service is provided for use with PSP provided coin or non-coin operated Public Telephone.

4. Third number and collect calls to Access Line Service for PSP Public Telephones are not allowed.

5. PSP Public Telephones must be connected to the Company network in compliance with Part 68 of FCC Rules and Regulations.

6. Access Line Service is provided subject to the condition that all applicable regulations in this Tariff will be adhered to.

7. Access Line Service is provided for use by the subscriber but may be used by others when so authorized by the subscriber, provided that all such usage is subject to the provisions of this Tariff.

8. Access Line Service is not subject to concessions.

9. Access Line Service may not be suspended at a reduced rate.

10. Access Line Service for PSP Public Telephones cannot be in[illegible] on accounts containing other classes of service. A separ[illegible] account is required for this offering at each location.

11. The operator cannot perform coin collecting functions.

12. The Company is not responsible for refunds of coins deposited in PSP Public Telephones.

ACCESS LINE SERVICE FOR CUSTOMER-PROVIDED
OR PAYPHONE SERVICE PROVIDER PUBLIC TELEPHONES (Continued)

(T)

13. PSP Public Telephones may not be attached to other types of access lines.

14. The subscriber to Access Line Service will be responsible for any and all toll charges billed to the subscriber's account.

15. PSPs shall post on or near the Public Telephone the name and phone number of the owner of the instrument.

16. PSPs shall post on or near the Public Telephone the operating instructions for the instrument.

17. PSPs shall provide and post on or near the instrument a cost-free method for reporting complaints and obtaining refunds.

18. PSPs that accept coins shall accept coins of various denominations and shall be capable of returning unused coins.

19. PSPs shall not charge for calls not completed.

20. PSPs shall provide access to 911 Emergency Service (where available) free and without the use of a coin.

21. PSP instruments shall be FCC registered, hearing aid compatible, meet federal requirements for size of digits on the instrument, and the use of letterless keypads is prohibited.

22. PSP Public Telephones shall be mounted in accordance with federal height regulations for disabled persons.

23. PSPs that provide access to long-distance service shall offer access to all certified long-distance carriers through 1-700, 1-800, 1-950, or 101XXXX dialing.

24. PSPs shall offer toll-free access to 800/888 numbers.

25. PSP Public Telephones shall not be connected behind a PBX.

26. The multi-line business subscriber line charge, found in the interstate access tariff, is applicable to all Public Telephone access lines.

(T)

C. Service Options

1. At the request of the subscriber, certain options may be added to the access line for Public Telephone Service and will be billed at the approved tariff rate. All options must be compatible with the hardware and software in use by the existing telephone Company switching equipment.

a. Coin Supervision Additive Service

The Company will provide Coin Supervision Additive Service to PSPs who order Access Line Service for the provision of Public Telephone Service and where the Public Telephone equipment connected to the Access Line Service requires central office coin supervision capability.

Coin Supervision Additive Service provides the capability of central office line equipment to pass signals and/or tones from the Access Line Service to a trunk terminating at the PSP's operator service provider. These signals enable an operator service provider to recognize coin deposits. Coin Supervision Additive Service also permits a suitable equipped operator service provider to automatically ring back the originating access line upon completion of a call.

This option requires a special central office line card which differs from the standard access line card and will be provided where facilities exist. The Company's central offices are only equipped for semi-postpay supervision.

b. Public Telephone Screening / Blocking

Screening / Blocking for Public Telephone access lines includes Company provided services necessary to coordinate with operator connections or block subscribers from making specific types of calls. This service includes software translations done at the Company's facilities and also includes coordination between the Company and connecting Company databases.

GENERAL EXCHANGE SERVICE TARIFFS

FOREIGN EXCHANGE SERVICE

1. Except in the case of tie lines and individual private branch exchange stations, the rate for foreign exchange service is the monthly rate for individual line main station service, private branch exchange trunk lines or private branch exchange system applicable within the base rate area of the designated central office of the foreign exchange area, plus charges as follows for each circuit:

   a. $ 1.00 per month per quarter-mile of fraction thereof, for the distance, route measurement, between the central office from which the subscriber normally would be served and the central office in the foreign exchange from which the subscriber desires to be served or in the event the Telephone Company has no exchange in any foreign territory or on account of non-patronage or circumstances beyond its control, an exchange is discontinued and any individual main station or private branch exchange system applicable within such foreign territory applies for said individual line service then the foreign exchange rate of $1.00 per quarter-mile per month applies. In addition the subscriber is charged with any extra exchange line mileage charges which would apply for connection with the central office from which service normally would be rendered. (I)

2. For tie lines connecting switchboards in different exchange area, mileage charges apply as follows for each circuit:

   a. $1.00 per month per quarter-mile or fraction thereof for the distance, route measurement, between the switchboards. (I)

3. The charge for individual private branch exchange stations connected for foreign exchange service, is the monthly rate applicable for other private branch stations connected to the same private branch exchange switchboard, plus mileage charges as follows for each circuit:

   a. $ 1.00 per month per quarter-mile or fraction thereof for the distance, route measurement, between the private branch exchange switchboard and the station. (I)

GENERAL EXCHANGE SERVICE TARIFFS

FOREIGN EXCHANGE SERVICE (Continued)

4. Foreign exchange service is furnished subject to the same restrictions as to the use of the service by others than the subscribers and his representatives, as apply in connection with other classes of exchange service.

5. Subscribers to foreign exchange service are required to contract for service in the exchange from which they would normally be served. The minimum requirement is one individual line or one trunk.

6. The local service area and toll rates to main stations or private branch exchange systems connected for foreign service are the same as regularly apply to stations located in the foreign exchange area. Charges, if any, for messages to foreign exchange main stations or private branch exchange systems are the established rates for messages to stations located in the foreign exchange area.

7. Where foreign exchange service is provided through the interexchange facilities of Another Telephone Company, the charges for this type service shall be in accordance with the contractual agreements between this Telephone Company and that Other Telephone Company, but in no event shall the charges to the subscriber for the services and facilities furnished by this Telephone Company be less than the rates for those same services and facilities as given under paragraphs 1 through 6 above.

8. The rates quoted herein contemplate the use of standard equipment and the installation of wiring required for standard equipment. Special equipment, facilities, and wiring are furnished, where practicable, at charges as determined by the provisions under Miscellaneous Services and Facilities or other applicable sections in this Tariff.

DATED November 29, 1988.

GENERAL EXCHANGE SERVICE TARIFF

INTERCONNECTION WITH CUSTOMER-PROVIDED EQUIPMENT AND SYSTEMS

A. GENERAL

The Federal Communications Commission, in their Docket 19528 permits direct interconnection of customer provided equipment (CPE). These sheets of the Tariff provide for implementation of this ruling and applies to the direct connection to the network of ancillary equipment other than coin telephones used in conjunction with all primary individual telephone service. (N)

1. Customer-provided equipment not permitted on party line service.

2. Except for Telephone Company provided ringers, all connection of equipment will be made through standard jacks provided by the Telephone Company and through standard customer provided plugs. The jack will be of modular design as prescribed by the FCC and must be wired so that there will be no interference to the rest of the service if the plug is withdrawn.

3. All customers who purchase their own equipment will advise the Telephone Company of its presence, registration number, its ringer equivalence number, U.S.O.C. number, and the lines to which the registered equipment will be connected.

4. A customer who fails to notify the Telephone Company of connection of grandfathered or registered terminal equipment or protective circuitry or is otherwise in violation of applicable laws, rules and regulations will be subject to discontinuance of service.

5. The use of customer provided circuitry or terminal equipment shall not require change in, or alteration of the equipment or other facilities of the Telephone Company. If any such circuitry or terminal equipment is found defective, its use shall be immediately discontinued until correction is made.

6. Telephone Company repair persons are not permitted to repair customer owned equipment. Repair of customer owned equipment must be performed by an authorized service agent. (N)

GENERAL EXCHANGE SERVICE TARIFF

INTERCONNECTION WITH CUSTOMER-PROVIDED EQUIPMENT AND SYSTEMS (Continued)

7. A charge applying when the subscriber requests a service call for repairs (when the subscriber owns all or part of the terminal equipment) and the Telephone Company's facilities are found not to be causing the trouble. That charge appears in Part II, Sheet 9A of this Tariff. (N)

8. In the event the subscriber should elect to provide the station wire. Registered Protective Circuitry must be provided by the subscriber or by the Telephone Company at a reasonable charge. Registered Protective Circuitry: Meaning separate, identifiable and discrete electrical circuitry designed to protect the telephone network from harm, which is registered in accordance with the rules and regulations of the Federal Communications Commission (F.C.C.). (N)

9. Station wiring provided by the subscriber without Registered Protective Circuitry must be of the same quality and meet the same specifications as those used by the Telephone Company. To insure these standards, the Telephone Company must inspect subscriber provided wiring. That charge being a service order charge and a premise visit charge, as shown elsewhere in these Tariffs, per inspection. (N)

ASSISTED SERVICE

A. GENERAL

The Brandenburg Telephone Company secures from connecting company or companies services to aid the subscribers of The Brandenburg Telephone Company in the use of their telephone. The following rules, regulations, and rates are established so The Brandenburg Telephone Company may be reimbursed by its subscribers for the expense they incur in the use of these services. (N)

B. LOCAL DIRECTORY ASSISTANCE SERVICE

a. In addition to providing telephone directories to all local exchange service subscribers, the Company furnishes Local Directory Assistance service whereby customers may obtain assistance in determining telephone numbers. The rates and allowances set forth below apply to subscriber request for Directory Assistance service in determining or attempting to determine the telephone number of any party located in, the local calling area.

b. Application of Charges and Allowances

1. The charges specified in c. following will be applicable to all subscribers except:

(a) Public and Semipublic Coin Telephone users;

(b) Hotel/Motel guests and Hospital patients;

(c) Customers who have been certified by a physician or appropriate agency as unable to use telephone directory because of a visual or physical handicap.

2. Chargeable Calls

For charging purposes a call to Local Directory Assistance is defined as a call:

(a) Resulting in obtaining a maximum of two telephone numbers; or

(b) Resulting in obtaining no telephone number because there was no such listing or there was a private listing. (N)

GENERAL EXCHANGE SERVICE TARIFF

ASSISTED SERVICE (Continued)

B. LOCAL DIRECTORY ASSISTANCE SERVICE (Continued)

b. Application of Charges and Allowances (Continued)

3. There will be an allowance of 5 calls per month at no charge for each local Network Access Line. Call allowances are not transferable between separate accounts, even for the same customer. (N)

4. Any unused portion of the monthly allowance described in 3. above will not be credited to the customer's account in any other month service is rendered.

5. There will be a charge for all customer calls to Local Directory Assistance, except as specified in 1. and 3. preceding.

c. Rates

1. A charge of $ .20 will apply for each Local Directory Assistance call in excess of the allowance.

2. A surcharge of $ .20 will be applicable to all calls connected to Local Directory Assistance by the "O" operator, provided that the "O" operator is not the only source for Local Directory Assistance. (N)

ASSISTED SERVICE (Continued)

C. OPERATOR ASSISTED LOCAL CALLS

a. A surcharge of $ .25 will apply when the caller requests operator assistance and the call is completed within the local service area. The call may be billed to the originating telephone, credit card, third number, collect or any other special identification number. (N)

b. Application of Charges

1. The $ .25 surcharge will be applied to each completed call except:

(a) For calls to the Company for official telephone business.

(b) For emergency calls to agency type telephone numbers such as to those agencies of the federal, state, or local government which have the capability and legal authority to provide aid in emergency situations and to any emergency medical number.

(c) When the caller identifies himself as being handicapped and unable to place the call due to his handicap.

(d) When the caller advises he has had service trouble in reaching the terminating number.

(e) Local emergency calls from a coin station. (N)

(f) Station paid calls from hotel guests.

ASSISTED SERVICE (Continued)

D. LOCAL OPERATOR VERIFICATION/INTERRUPTION SERVICE

a. Verification service provides operator assistance in determining if a called line is in use. Interruption service provides for operator interruption of a conversation in progress on a called line. The customer may request these services for a charge, where facilities are available, by calling the operator. (N)

b. Application of Charges

1. The charges specified in c. following will apply to all requests except:

(a) Emergency requests from official emergency agencies when the request is received on an agency line from agency personnel.

(b) Emergency requests in which the caller identifies that the request is to (1) an official public emergency agency; (2) an emergency medical number; or (3) a privately endowed and operated suicide, drug, alcohol, or runaway crisis reporting center.

(c) Request in which the operator encounters a trouble condition or has reason to believe a trouble condition exists.

c. Rates

1. Verification: A charge of $ .50 applies each time the operator verifies a called line and hears voice communication.

2. Interruption: A Charge of $ 1.00 applies each time the operator interrupts a conversation that is in progress on the called line. The charge is for the interrupt service and does not depend on whether the called party agrees to release the line and accept the call.

3. If the operator both verifies the condition of the line and interrupts conversation on the same request, the interrupt charge only applies.

4. The charges for Verify/Interrupt service are in addition to any applicable message rates. (N)

GENERAL EXCHANGE SERVICE TARIFF

SHARED TENANT SERVICE

A. GENERAL

1. In general, basic local exchange service is furnished for the exclusive use of the subscriber, and the subscriber's family, guests, employees, agents, or representatives. Resale of basic local exchange service is permitted only under the specific conditions described in this tariff. (N)

2. The customer must apply in writing to resell exchange services provided by the Company. When in judgment of the Company it is deemed necessary, the reseller may be required to submit layout maps defining the intended geographic resale area and anticipated development plan in terms of new or existing buildings.

3. All rates and charges in connection with the resale operation and all repairs and rearrangements behind and including the reseller's communication system will be the responsibility of the reseller. The reseller will be the single point of contact for all shared tenant services provided in the resale service area. Tenants who choose to obtain service directly from the Company may subscribe to any local exchange service available.

4. Nothing in this tariff section impairs the Company's franchise or ability to operate in the state. This tariff is not intended, nor does it, enfranchise or certify the recepients of this service as a telecommunications company.

5. Shared Tenant Service should be permitted where facilities are available within continuous property areas under single ownership or within common developments with a single name identity, such as multi-tenant office buildings, apartment and condominium complexes, commercial malls, campus complexes, offices and industrial parks. "Single ownership" should be interpreted so as to mean not only an individual owner, but also ownership in the form of a corporation, jointventure, or partnership with a single name identity. "Continuous property" should be construed to mean property that is not intersected by property owned by other entities. Furthermore, continuous property can be intersected by public thoroughfares, railroads, and other public and private rights of way, provided that the property would be continuous in the absence of such intersections. Continuous property may straddle exchange boundaries. In such cases, the most economic exchange will be selected. (N)

BRANDENBURG TELEPHONE COMPANY

GENERAL EXCHANGE SERVICE TARIFF

SHARED TENANT SERVICE (Continued)

A. GENERAL (Continued)

6. The premises definition as applied to resale of basic local exchange service is a resale area as defined by layout maps and A. 5.

7. Private line services may be provided to tenants of resellers under the rules and regulations as shown in other parts of this tariff and tariffs of other Companies that Brandenburg Telephone Company concurs.

8. Private interconnections of resale service areas within an exchange local calling area and LATA is prohibited. Tie lines are restricted to the private use of a single resale client and cannot be used to access Local Exchange Service via Sharing and Resale trunks and lines.

9. All other rules and regulations specified in other sections of this tariff will apply. In the absence of any rule or regulation, Shared Tenant Service resellers will be treated as any other PABX customer and those rules and regulations will apply.

10. Should E-911 become available identification cannot be made to tenant of reseller.

B. REGULATIONS

1. Resale of exchange service is available only on a business flat rate service basis. Regular PABX trunk rates (same as business network access) as shown elsewhere in this tariff shall apply. (R)

2. The service establishment charges for all resale applications shall be those applicable service connecting charges as shown in PART II Sheet 8.1, 8.2, 8.3 and applicable charges as shown in tariffs of other Companies that Brandenburg Telephone concurs.

3. Whether the tenants of a reseller are business or residence the trunk PABX business rate of the telephone company shall applies.

GENERAL EXCHANGE SERVICE TARIFF

SHARED TENANT SERVICE (Continued)

B. REGULATIONS (Continued)

4. The minimum period of service is 36 months with a service cancellation charge applicable at the date of termination based on the exchange rates in effect. The service cancellation charge is reduced 1/36 per month and will be an amount equal to the exchange rates for the maximum number of lines subscribed to during the service period. A nine month notice is required prior to termination of service by the reseller. (N)

5. When a tenant located within the designated resale service area wishes to be directly served by the Telephone Company on a non-resale basis, or when Brandenburg Telephone Company or customer provided coin telephone service is to be provided in the resale service area, the reseller will bear the responsibility for and cost of providing premises access for such services. The reseller/owner will make either cable pairs or their equivalents available, or provide facility support (conduit or poles) access to the Company at no charge provision of these services.

6. The Company will provide facilites to the first point (demarcation/ network interface, usually next to station protector) on the reseller's premises which, in the judgment of the Company, is suitable for the location of a network interface. The most economical route from existing network distribution facilities will generally determine the approach used in establishing the point-of-demarcation. The customer may designate an alternate approach route for entrance facilities at additional charges on a per cost basis. Route selection and location of point-of-demarcation must be in compliance with the latest edition of the National Electric Code, regulations of this tariff and F.C.C. Part 68.

7. Upon ordering this service, the customer/reseller will be required to fill out a shared tenant service application. This will consist of the name of a point of contact, address and phone number along with a brief description of the shared tenant service area including layout maps. Information should be given at this time to establish credit and the amount of deposit. (N)

SHARED TENANT SERVICE (Continued)

B. REGULATION (Continued)

8. All requests for service changes, additions, etc. must be made by the shared tenant service subscriber's point of contact as specified in item 7 preceding. The Company will not proceed with changes, additions, etc. requested by entities other than the official subscriber contact as indicated on the shared tenant service application. (N)

9. One telephone number will be provided with each shared tenant trunk. A listing of that number will be provided in the white pages of the Telephone Company's directory without charge. Additional numbers and additional listings may be provided at the approved tariff rate. Additional listing for tenants will not be separately billed. A tenant of the reseller is defined as a different business, firm, corporation, company, subsidiary association, associate, agent or a resident.

10. This service is furnished subject to the conditions that all applicable regulations in this tariff will be adhered to, and all usage is subject to the provisions of this tariff.

11. This service is not subject to concessions.

12. This service may not be suspended at a reduced rate.

13. Brandenburg Telephone Company cannot provide a better grade of access line to a shared tenant reseller than it provides to other PABX customers.

14. Subscribers to shared tenant service will be disconnected for non-payment of charges same as other PABX customers under provisions found elsewhere in this tariff. Only the point of contact as specified in item 7 preceding will be notified of intent to disconnect.

15. At the request of the reseller , certain options may be added to the access line for shared tenant service and will be billed at the rate shown elsewhere in this tariff. All options must be compatible to hardware, software and tariff. (N)

C. RATES

1. The monthly rate for shared tenant service access trunks will be same as the business individual line network access rate as shown in PART III of this tariff. This being the same rate as charged other PABX customers. See PART II Sheet 38 and Sheet 40.1. (R)

2. Service charges are applied on the same basis as for individual line business network access as covered in PART II of this tariff.

3. At the request of the reseller, other options may be added to the shared tenant service access line at the monthly rate as shown in PART II of this tariff.

4. The reseller is responsible for Directory Assistance and Operator Assistance charges equivalent to those billed on business individual line network access.

5. The reseller will be responsible for any and all toll charges billed to these access lines.

6. Maintenance of service charges are applied on the same basis as for business individual line network access as covered in PART II of this tariff.

7. Mileage charges are charged on the same basis as applies to other types of individual line access service.

8. Interstate and intrastate subscriber line/end user charges shall apply.

9. Other rates and regulations in this tariff not discussed herein that pertain to business individual line network access apply.

TELECOMMUNICATIONS RELAY SERVICE
(Formerly DUAL PARTY RELAY SERVICE)

A. GENERAL

1. On April 15, 1991, The Kentucky Public Service Commission approved a program for Dual Party Relay Service Pursuant to KRS 278.548. By order dated June 11, 1992 the Commission changed the name of this program to "Telecommunications Relay Service". This Service provides telephone communications between deaf and hearing/ speech impaired customers who use Telecommunications Devices for the Deaf ("TDD") and all customers who use standard voice telephones. Brandenburg Telephone Company will provide their part of this service under the following regulations.

B. REGULATIONS

1. All customers will have access to this Telecommunications Relay Service ("TRS") that can normally place 800 type toll free calls and can normally receive incoming toll calls.

2. The charge for TRS will be a per month surcharge per access line as set by the Kentucky Public Service Commission.

3. The surcharge shall be assessed on all access lines to which the Federal End User Charge applies.

4. Access Line being any revenue producing line provided to business and or residence customers from the Telephone Company under its general and/or local exchange tariff.

5. TRS shall be available for all calls intrastate and interstate originating and terminating within the Commonwealth of Kentucky in accordance with KRS 278.548.

6. Due to a limit of twenty spaces on the customer bill line, the TDD's surcharge and the "Kentucky Telecommunications Relay Service Surcharge" will be combined and abbreviated on the customer's bill as follows "KY TRS/TDD SURCHARGE".

C. RATES

1. Nine (9) Cents per month per access line. (I)

TDD DISTRIBUTION PROGRAM FOR DEAF
HARD-OF-HEARING AND SPEECH-IMPAIRED PERSONS IN KENTUCKY

A. GENERAL

1. On January 19, 1995, The Kentucky Public Service Commission, by order, established a program to distribute telecommunications devices for the deaf ("TDDs") to deaf, hard-of-hearing, and speech-impaired persons. The TDDs will facilitate the use of the telecommunications relay service established pursuant to KRS 278.548 and facilitate direct communications between persons who are deaf, hard-of-hearing, and speech-impaired. KRS 278.5499 requires the Commission to determine the appropriate funding mechanism. Brandenburg Telephone Company will collect their portion of the funds to provide this service under the following regulations.

B. REGULATIONS

1. All customers who qualify shall have access to this TDD distribution program.

2. The charge for TDD will be a per month surcharge per access line as set by the Kentucky Public Service Commission.

3. The surcharge shall be assessed on all access lines to which the Federal End User Charge applies.

4. Access Line being any revenue producing line provided to business and or residence customers from the Telephone Company under its general and/or local exchange tariff.

5. Due to a limit of twenty spaces on the customer bill line, The TDD's surcharge and the "Kentucky Telecommunications Relay Service Surcharge" will be combined and abbreviated on the customer's bill as follows "KY TRS/TDD SURCHARGE".

C. RATES

1. One (1) Cent per month per access line.
