O R D E R

By Order dated August 18, 1993, the Commission directed Staffordsville Sanitary Systems, Inc. ("Staffordsville") to correct within 30 days all deficient conditions found during the Commission Staff's March 23, 1993 inspection of Staffordsville's facilities. The Order also stated that failure to comply with the provisions of the Order would result in the Commission initiating show cause proceedings against Staffordsville.

On February 3, 1994, the Commission initiated show cause proceedings against Staffordsville for its failure to comply with the Commission's August 18, 1993 Order.[1] The Commission finds no useful purpose would be served by allowing this case to remain on its docket; therefore, the instant case should be closed and removed from the docket.

IT IS THEREFORE ORDERED that this case is closed and removed from the Commission's docket.
