Subject: LATEST VERSION: AAR Winter Storm Elliott ERTs
Attachments: EPRP After Action Review - Winter Storm Elliott ERTs.docx

Updated with Jamie's edits. Also added second "what went right" since you all published KU areawide ERTs well before the deadline. I will take care of the second action item, updating circuit level timelines to N/A for lower level events. I'm assuming Jamie will identify the DCC ERT czars; I am happy to go over timeline commitments with them once identified. Will incorporate other edits as received.
