Subject: Fwd: GE Sliding Fuel Pressure Update - 6.15.2023
Attachments: Sliding Fuel Pressure Evaluation.docx

Attached is a summary of the GE sliding gas pressure upgrade and the benefits we could expect to obtain at Trimble. We are moving forward with it and the plan is to have it installed this fall. I'll provide updates as we continue to work with GE.

Subject: GE Sliding Fuel Pressure Update - 6.15.2023

During today's call GE provided their final charts showing the estimated minimum pressure capability of the software along with answering our final questions. The attached word document is a short summary of the software and the benefits we can expect to obtain.

I intend on giving GE the final go ahead to proceed tomorrow (Friday) unless anyone feels like we should not.

Let me know if any additional information is needed.

Thanks.
