CONTRACT FOR ELECTRIC SERVICE

This contract made and entered into this 22 day of October, 2014 by and between Kentucky Utilities Company ("Company") and Toyota Motor Manufacturing Kentucky, Inc. ("Customer").

WITNESSETH:
Beginning See Comments, or as soon thereafter as connection is made, Company will sell and deliver to Customer at 1001 Cherry Blossom Way, Georgetown Kentucky all Customer's electric capacity and energy requirements defined as 3 phase, 60 cycle, alternating current, nominal voltage at the point of delivery of 13,200 volts, metered and billed as Primary service.
Secondary, Primary, Transmission

Customer requires an estimated Contract Capacity of 85,000 kVA or kW, as is appropriate.

Each month Customer will pay to Company for all capacity provided and energy delivered to Customer in the preceding billing period an amount determined in accordance with the
TODP, Time-of-Day Primary Rate Schedule and, as may be appropriate, the
Rider, contract attached if required, and the
Rider, contract attached if required, and the
Rider, contract attached if required.

Comments: This Contract for Electric Service supersedes previously dated contracts. The purpose of this contract is to allow a deviation for serving a load above the rate cap of 75,000 kVA. This contract is effective with the first full billing month following Commission approval. Should TODP be modified to a Contract Capacity at or above 100,000 kVA, this special contract will terminate and a new contract will be executed in accordance with the standard terms and conditions with the revised rate TODP.

TARIFF PROVISIONS: It is mutually agreed that Company's terms and conditions and applicable rate schedule, as from time to time approved by and on file with the Public Service Commission of Kentucky, are made a part of this contract as fully as if written here.

IN WITNESS WHEREOF, the parties hereto have caused this contract to be executed by their duly authorized representatives the day and year shown above.
