Re: AT&T Mobility/Windstream Kentucky East arbitration, KPSC 2009-00246

Dear Mr. Derouen,

Please accept this letter as a request by AT&T Mobility and Kentucky Windstream East, LLC to suspend the current procedural schedule in this matter. By its Order issued on November 15, 2010, the Commission required AT&T Mobility to prepare a new traffic study in this matter. The parties are working together to facilitate the preparation of that study, and are in agreement that the procedural schedule in this matter will have to be amended accordingly.

Ms. Tiffany Bowman was made aware of this issue and she asked if an amended schedule would be presented to the Commission by December 10, 2010. The parties are working to prepare the amended schedule and will submit it to the Commission as quickly as possible in light of the intervening holidays, but will not be able to by December 10. Please note that a new hearing date will need to be scheduled, so it would be appreciated if you could notify the parties of potential new dates for such hearing.

Please feel free to contact me if you have any questions.

Sincerely,

A handwritten signature in cursive script that reads "Stacy Majors".
