Re: In the Matter of Big Valley Sanitation, Inc.
Case #: 2009-00378

Dear Mr. Derouen:

The Bullitt County Sanitation District has requested me to inform you that they have been assisting Bullitt County Government and the people of Bullitt County for some number of months now and the ad hoc and day-to-day operation of the Big Valley Sewer Plant. Unfortunately, after the plant was abandoned the electric company shut off power to the plant. The Bullitt County Sanitation District had the power restored and has been providing electric to the plant ever since.

At the time the County Judge requested the District to assist in keeping the waters of Bullitt County and the Commonwealth from being polluted (sewage was flowing across the top of the ground at that time) the District presumed that the matter would be resolved within a few months to enable it to stand down from its ad hoc operation. Those few months have stretched on to over twelve months. Their District has requested that I notify you that it will have the electric service to the plant taken out of its name effective April 1, 2011.

If you have any questions please feel free to contact me.

Sincerely,

A handwritten signature in black ink, appearing to read 'Walter A. Sholar', written over a large, stylized flourish.
