GENERAL TARIFF INFORMATION

TARIFF FORMAT

A. Page Numbering - Page numbers appear in the upper right corner of the page. Pages are numbered sequentially. However, new pages are occasionally added to the tariff. When a new page is added between pages already in effect, a decimal is added. For example, a new page added between pages 4 and 5 would be 4.1.

B. Page Revision Numbers - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current page version on file with the Commission. For example, the 4th revised Page 4 cancels the 3rd revised Page 4.

C. Paragraph Numbering Sequence - There are five levels of paragraph coding. Each level of coding is subservient to its next higher level:

2
2.1
2.1.1
2.1.1.(A)
2.1.1.(A).1.

D. Check Sheets - When a tariff filing is made with the Commission, an updated check sheet accompanies the tariff filing. The check sheet lists the pages contained in the tariff, with a cross-reference to the current revision number. When new pages are added, the check sheet is changed to reflect the revision.

2.6 BILLING AND BILLING DISPUTES

2.6.1 Billing to Customers will be scheduled monthly. Usage charges are billed in arrears. Recurring fixed charges are billed monthly in advance. A bill will be considered rendered to the Customer when deposited in the United States mail with postage prepaid. If the delivery is by other than United States mail, the bill will be considered rendered when delivered to the last known address of the party responsible for payment.

2.6.2 The Customer is responsible for payment of all charges for services furnished to the Customer or its joint or authorized users. This responsibility is not changed due to any use, misuse, or abuse of the Customer's Service or Customer provided equipment by third parties, the Customer's employees, or the public. This responsibility includes payment for calls or services that originate at the Customer's number(s), that are accepted at the Customer's number(s) (e.g., collect calls), that are billed to the Customer number(s) via Third Number Billing if the Customer is found to be responsible for such call or service, the use of a Calling Card, or the use of a Company-assigned Special Billing Number and incurred at the specific request of the Customer.

2.6.3 Payment is due by the date printed on the bill. Payments are sent to the address listed on the bill.

2.6.4 Customer bills for telephone service are due on the due date specified on the bill. A customer is in default unless payment is made on or before the due date specified on the bill. If payment is not received by the customer's next billing date, a late payment charge of 1.5% will be applied to the past due amounts on the customer's bills. A penalty may be assessed only once on any bill for rendered services. Any payment received shall first be applied to the bill for service rendered. Additional penalty charges shall not be assessed on unpaid penalty charges.

2.6.5 In the event of a dispute concerning an invoice, the Customer must pay a sum equal to the amount of the undisputed portion of the bill. The Customer must notify the LEC business office of the disputed portion in writing within 3 months from the date the invoice was rendered or such invoice would be deemed to be correct and binding on the Customer.

2.6.6 In the event suit is brought or an attorney is retained by the Carrier to enforce the terms of this Tariff, the Carrier shall be entitled to recover, in addition to any other remedy, reimbursement for reasonable attorneys' fees, court costs, costs of investigation and other related expenses incurred in connection therewith.

4.6.2 Dedicated MPLS-VPN Service

A. General

Dedicated MPLS-VPN Service is a packet-switched network that provides a point-to-point or multi-point service arrangement for customers requiring special high bandwidth data applications. This service is offered with various transport speeds ranging from 1.5 Mbps to 1 Gbps from one customer premise location to another customer premise location or multiple locations within the state.

B. Conditions and Limitations

1. The service is offered subject to the availability of central office equipment and appropriate outside plant facilities. The service may not be available to all customers and/or at all speeds due to loop length, line conditioning and/or facility availability.

2. Customers must subscribe to this service for a minimum of twelve months.

3. Rates are based on term agreements. The rates are in effect from the time the service is installed until the end of the term agreement period. Upon expiration of the term agreement period, the customer may keep the same term agreement period or select a new term agreement period. Whichever term agreement the customer chooses, the rates for that term agreement will be at the rates in effect at that time.

4. Rates will not be increased by the Company until the term agreement period expires.

5. If the service is canceled by the customer prior to the completion of the term agreement period, the customer will be obligated to pay a termination charge. The applicable termination charge will be equal to the number of months remaining in the term agreement period times the monthly rate provided under the term agreement. Termination charges will not apply, if the customer replaces the service with comparable service and a term length that is equal to or greater than the original term agreement period.

6. If the applicant requests a different type of construction, equipment or facilities other than what is normally provided, the applicant may be assessed the costs of such arrangement. (N)

Charges for 900 Messages are for Non-Telecommunication Services

Your local and long distance service cannot be disconnected for non-payment of 900/976 charges. Failure to pay legitimate 900/976 charges may result in involuntary blocking of your access to 900/976 services. Voluntary blocking of access to 900/976 service is available upon request from your local exchange carrier, if technically feasible. You have 60 days from the date of this bill to dispute a billing error. You have the right to withhold payment of the disputed charges during the billing error review. No collection activity for disputed charges will occur while the charges are under investigation. After investigation, if it is determined that the disputed charges are not legitimate, they will be removed from your bill. If it is determined that the disputed charges are legitimate, the carrier or the information provider may proceed with outside collections against your account. If you have any billing disputes or inquiries, please contact your local telephone company at the number shown above.

End the frustration and save time with *66 and *69

Don't waste time redialing busy numbers, just dial *66 and let TDS TELECOM do the work for you. *66 will automatically redial your busy numbers for up to 30 minutes.

With *69, you'll know who called when you can't get to the phone in time. *69 gives you the number of your last caller and the option to return the call with the press of a single button. Use both of these services only when you need them for just $.50 per use!

Are you listed correctly in the telephone directory?

Very soon, we will begin printing a new edition of the telephone directory. We would like to be sure your listing is correct before we print. Please check your name, address and phone number as they are printed in the current telephone directory. If something is not right, please contact our business office with any changes. Please keep in mind that changes and additions to your listing, other than corrections, may result in a non-recurring charge and an additional monthly fee.
