RE: Case No. 2010-00130

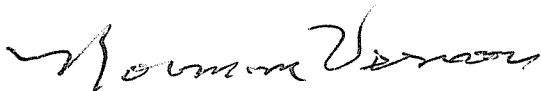

Mr. Jeff Derouen,

The results of this case is somewhat to be expected as an individual has very little chance against a large corporation. It does make me very sad to see blatant untruths allowed as evidence by LG & E. I gathered all the data I could and I know for sure the supplied gas usage charts for my home and my neighbors home to be 100 per cent accurate.

Nothing that I have seen from L G & E can explain why after my meter was changed, my gas usage was then in a normal pattern to neighboring homes.

I know for sure that I have been unfairly charged for many years, but I don't know of any more data that I could supply.

Respectfully,

A handwritten signature in black ink, appearing to read "Norman Vernon". The signature is written in a cursive style with a large initial "N".

Norman Vernon
