PUBLIC SERVICE  
COMMISSION

November 8, 2010

Mr. Jeff DeRouen  
Executive Director  
Kentucky Public Service Commission  
P.O. Box 615  
211 Sower Boulevard  
Frankfort, KY 40602

Dear Mr. DeRouen:

Hillridge Facilities, Inc. has applied to the Public Service Commission for a proposed sewer rate increase of 81.1% per month.

As a resident of Hillridge subdivision, I ask that you consider my motion to intervene on the grounds that the proposed rate hike is excessive and unacceptable. I can think of no business or organization that could possibly get away with instituting such an enormous rate increase.

I've walked through a large area of the subdivision, and I've been appalled by the odor coming from the Hillridge facility, especially during the summer months. I live far enough away from the facility that I don't have to put up with the odor, but I sympathize with those who do. I believe Hillridge Facilities is better at raising its rates than running its business.

As far as I'm concerned, the huge rate hike is totally unjustified, and that is why I am submitting this motion to intervene. Please consider my objections, and those of other Hillridge residents, when reviewing the rate increase proposed by Hillridge Facilities.

Sincerely,

Brenda Cox  
9009 Lethborough Drive  
Louisville, KY 40299
