PUBLIC SERVICE  
COMMISSION

Mr. Jeff Derouen:

We are sending this letter of request to intervene on the rate increase at Hillridge Facilities, Inc.

We feel there should not be a rate increase, nor a surcharge to repair and replace sewers.

Money already collected over the years should be an adequate amount to run the plant and take care of repairs.

We have had terrible odors for many years. We have also had plumbers out to our house several times.

Please intervene on our behalf.  
We need to have a public meeting.

Sincerely,  
Lenny<sup>2nd</sup> & Colinne  
Whalley
