COMMISSION STAFF'S SECOND DATA REQUEST TO
KENTUCKY UTILITIES COMPANY

Kentucky Utilities Company ("KU") is to file with the Commission the original and 10 copies of the following information, with a copy to all parties of record. The information requested herein is due no later than March 7, 2011. Responses to requests for information shall be appropriately bound, tabbed and indexed. Each response shall include the name of the witness responsible for responding to the questions related to the information provided.

Each response shall be answered under oath or, for representatives of a public or private corporation or a partnership or association or a governmental agency, be accompanied by a signed certification of the preparer or person supervising the preparation of the response on behalf of the entity that the response is true and accurate to the best of that person's knowledge, information, and belief formed after a reasonable inquiry.

KU shall make timely amendment to any prior response if it obtains information which indicates that the response was incorrect when made or, though correct when made, is now incorrect in any material respect. For any request to which KU fails or

refuses to furnish all or part of the requested information, it shall provide a written explanation of the specific grounds for its failure to completely and precisely respond.

Careful attention should be given to copied material to ensure that it is legible. When the requested information has been previously provided in this proceeding in the requested format, reference may be made to the specific location of that information in responding to this request. When applicable, the requested information shall be separately provided for total company operations and jurisdictional operations.

1. Refer to Item 4 of the Data Request issued with the Commission's January 26, 2011 Order ("Commission's First Request"). This response shows that KU is proposing to remove \$.00086 of fuel costs from its base rates. Explain the reason KU is proposing to make this change to all of its energy rates rather than request that no change be made on the grounds of immateriality.

2. Refer to the confidential response to Item 24 of the Commission's First Request. Provide this response in ascending order of lowest evaluated cost. For all bids lower than those selected by KU, include the reason the lower bid was not selected.
