Dear Mr. Mathis:

The City of Manchester just recently completed construction of a new 3.2 million gallon per day state of the art water treatment plant. The total project cost exceeded \$8,000,000 of which \$2,349,078 was loan. Due to the cost of the debt service of the new water treatment plant and the rising cost to meeting more stringent regulations the City is forced to implement a rate increase. The current rate being charged to North Manchester Water Association is \$1.50 per 1,000 gallons. The new rate will be \$2.50 per 1,000 gallons. Please be advised that the new rate will be effective 30 days from the date of this letter.

Sincerely,
CITY OF MANCHESTER
