Re: Symsonia Construct/Finance/Rates Case No. 2012-00517

Dear Sirs,

Symsonia Water District has proposed in the above-referenced case to construct a new source of water supply, to finance the construction with Kentucky Infrastructure Authority funds, and to increase its rates for water and sewer service. The Commission issued a Staff Report in early April 2013 finding that the rate increases are justified. In addition, neither the Attorney General nor any intervenors have objected to any aspect of the case, and therefore it was submitted for decision over 100 days ago. Due to certain procedural rulings in this case, the Commission's statutory timeframe for concluding it will not end until late November of 2013 unless a Final Order is issued before then.

Symsonia is eager to begin construction of this project before the onset of winter makes it more difficult and more expensive to accomplish. We therefore respectfully ask that a Final Order be issued as expeditiously as possible to allow us to proceed to secure the financing, begin construction of this vital water project, and to charge the rates proposed in our application.

Sincerely,

Stuart Bell,
Interim Chairman, Symsonia Water District
