PUBLIC SERVICE
COMMISSION

Sir,

I would like to inform your office that after reviewing the extra information presented by Fountain Run Water District in its official response to PSC Request for information my initial submission for witnesses still stands. I would request that the current FRWSD water board members be required to attend this hearing as well as General Manager Ross and Office Manager Louis Veach along with Mr. Jackson the sewer superintendent. According to the recent submission all of these individuals will be needed to fully understand this erroneous billing practice by Fountain Run Water District.

I would therefore request that PSC compel the above mentioned water district members and employees to attend on Friday August 16th.

Respectfully yours
Robert Hawkins
