

COMMONWEALTH OF KENTUCKY
BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

TARIFF FILING OF EAST KENTUCKY POWER)	
COOPERATIVE, INC. FOR APPROVAL OF A)	
NEW DEMAND-SIDE MANAGEMENT PROGRAM)	CASE NO.
ENERGY STAR MANUFACTURED HOME)	2014-00359
PROGRAM)	

COMMISSION STAFF'S SECOND REQUEST FOR INFORMATION
TO EAST KENTUCKY POWER COOPERATIVE, INC.

East Kentucky Power Cooperative, Inc. ("EKPC"), pursuant to 807 KAR 5:001, is to file with the Commission the original and eight copies of the following information, with a copy to all parties of record. The information requested herein is due no later than December 10, 2014. Responses to requests for information shall be appropriately bound, tabbed and indexed. Each response shall include the name of the witness responsible for responding to the questions related to the information provided.

Each response shall be answered under oath or, for representatives of a public or private corporation or a partnership or association or a governmental agency, be accompanied by a signed certification of the preparer or person supervising the preparation of the response on behalf of the entity that the response is true and accurate to the best of that person's knowledge, information, and belief formed after a reasonable inquiry.

EKPC shall make timely amendment to any prior response if it obtains information which indicates that the response was incorrect when made or, though correct when made, is now incorrect in any material respect. For any request to which

EKPC fails or refuses to furnish all or part of the requested information, it shall provide a written explanation of the specific grounds for its failure to completely and precisely respond.

Careful attention should be given to copied material to ensure that it is legible. When the requested information has been previously provided in this proceeding in the requested format, reference may be made to the specific location of that information in responding to this request.

1. Refer to the cover letter (“Cover Letter”) filed September 11, 2014. In the Cover Letter, EKPC states, “Upon Commission approval of this tariff, EKPC will execute an agreement with SBRA to administer the ENERGY STAR® manufactured home program for EKPC and its participating owner-members.” Refer also to EKPC’s response to the Commission Staff’s Initial Request for Information (“Staff’s Initial Request”), Item 2, which states, “The numbers EKPC used on its cost-effectiveness analysis were based on the parameters in EKPC’s contract with Systems Building Research Alliance (“SBRA”).”

a. Explain whether EKPC has signed an agreement with SBRA, and if so, provide the agreement.

b. If EKPC has a draft of the agreement that has yet to be executed, provide the draft agreement.

c. If neither an executed agreement nor a draft agreement exists, describe the proposed contract provisions and the proposed performance of each party.

2. Refer to EKPC’s response to Staff’s Initial Request, Item 2. The response provided the projected Energy Star Manufactured Home Program (“ESMHP”)

participation by year from 2015 to 2018, and also stated, “The projected number of homes in that contract is 400 over an 18-month period. EKPC used that figure so that the participation, savings, and costs would all match.”

a. If there is an agreement with SBRA, explain whether the contract time period is only for 18 months, and if so, explain why it is for 18 months.

b. Explain the statement, “EKPC used that figure so that the participation, savings, and costs would all match.”

3. Refer to EKPC’s response to Staff’s Initial Request, Item 2. The response noted that manufactured homes ready to purchase on the lot are typically not upgraded to ENERGY STAR® standards, but that custom-ordered manufactured homes typically are upgraded to ENERGY STAR® standards. The response further stated that EKPC could expect that “50% of the eligible market” of 800 new homes per year would participate in the proposed demand-side management program. Explain whether the 800 new homes refers to all the manufactured homes or just to the custom-ordered manufactured homes sold in EKPC’s market.

4. Refer to EKPC’s response to Staff’s Initial Request, Item 4.

a. Explain whether there is a Production Inspection Primary Inspection Agency or Design Approval Primary Inspection Agency (“DAPIA”) in Kentucky, and if so, identify the Kentucky agency contact.

b. Describe the DAPIA package.

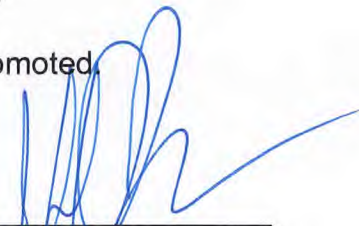

c. Explain who has oversight of the United States Housing and Urban Development-authorized agent inspectors.

d. Identify the third-party independent inspection agency and describe the inspections and tests that are performed by the third-party independent inspection agency.

5. Refer to EKPC's response to Staff's Initial Request, Item 6. Explain whether and how this program will eliminate free-riders.

6. Provide the projected average annual kWh savings EKPC expects to achieve from the ESMHP per member participant.

7. Explain how the ESMHP is to be promoted.
