Customer Service:

In April or early May of 1996 I signed up for natural gas service with your company. At that time I was told that it had to be a commercial account because it had been in the past. I explained that there was only one gas appliance in the building and it was the furnace that heated a 750 square foot apartment that I would be living in at the time. Despite my complaint I had to do what you said. Since that time I have paid double and triple what I should have been paying. Over the years I complained several times too no avail. Recently I rented out the apartment and the tenant was to convert the gas into his name. When he tried he was told that it would be several hundred dollars because it was a commercial account. This time when I called to complain I was told that this should never have been a commercial account and that it would be changed. (copies of the last two bills are attached showing the change. I asked about getting a refund for all the extra money I had paid for over 16 years plus the hookup fee. I was told that it would be given to someone to research and I would be contacted. A couple of weeks later I called again and was told the same thing. That inaction is why I am writing this letter. I have attached the two bills for last month that show the change. I have also sent a copy of this letter to the Kentucky Public Service Commission to encourage your response and refund.
