12. This question is addressed to EKPC and all of the member distribution cooperatives. If the Commission approves the since inception methodology proposed by South Kentucky, does EKPC and each member distribution cooperative agree that the since inception methodology should be applied to calculate the over-/under-recovery amount for all of the member distribution cooperatives, for this proceeding only, and adopt the amortization exclusion methodology for future proceedings?

Witness: Mark Keene

Response Yes.

13. This question is for all of the member distribution cooperatives. Refer to South Kentucky's response to Staff's Fourth Request, Item 3.d., pages 6 - 13 of 17. Should the Commission elect to approve the since inception methodology in calculating the over/under balance at December 31, 2013, do the member distribution cooperatives agree with the information in Items 13.a. - 13.p. below? If not, provide the correct information along with supporting calculations in electronic format with all cells and formulas intact.
- i. Jackson Energy Cooperative Corporation will have a net under recovery at December 31, 2013 of \$151,196 [$\$24,401 - (\$126,795)$], with an average increase in the residential bill of \$0.73 per month.
