PUBLIC SERVICE
COMMISSION

Members of the PSC,

In response to the service report provided by Inter-county RECC, I ask that the Public Service Commission have KU electricity provide a list of outages by their customers that live closest to me. I have neighbors that live about two-tenths of a mile from the back of my house at 158 and 194 Casey Drive, I ask that KU please provide the PSC with a list of outages at these residences compared to mine over the past ten years, or longer if you prefer. I also ask as to how this business man that purchased two properties that were located within Inter-county boundaries was able to switch his provider from Inter-county electricity to KU electricity? I think if the PSC compares the KU service of my closest neighbors to my service they will understand why I would like to switch to KU service. Compare the outages at 158 and 194 Casey Drive to my outages at N 1660 Wallace Wilkinson Blvd.

Thank you,

Cheryl J. Ritter
Notary Public, State of Ohio
My Commission Expires 12-08-2014
