**Re: Case No. 2014-00175**

Dear Sir or Madam:

On May 29, 2014, Edmonson County Water District filed an Application with the Kentucky Public Service Commission pursuant to KRS 278.023 and 807 KAR 5:069 requesting that the Commission approve increases to the District's water and sewer rates. It has come to our attention that Exhibit A to the Application, the Preliminary Engineering Report of GRW Engineers, Inc. dated November 2012, contains three typographical errors. The first two, located on page 7 of the Report, incorrectly state that the District's current 5/8" by 3/4" water connection fee is \$475 instead of \$575 and its 1" water connection fee is \$500 rather than actual cost. The third, located on page 13 of the Report, also shows the 5/8" by 3/4" water connection fee as \$475 instead of \$575. Corrected copies of pages 7 and 13 of the Report are enclosed for your file.

None of these errors impact the new water and sewer rates requested to be approved by the Application. Moreover, the new rates described in the District's Notice of Adjustment of Water and Sewer Rates included in Exhibit E of the Application are correct and are unaffected by the above-described errors.

Please contact me at (502) 568-5460 or [mark.franklin@skofirm.com](mailto:mark.franklin@skofirm.com) if you have any questions or would like to discuss this further.

Sincerely,

Mark S. Franklin
