Re: Application of Bullitt Utilities, Inc., for a Certificate of Convenience and Necessity,
and for Surcharge for Same ("Application")
PSC Case No. 2014-0255

Dear Ms. Faulkner:

Bullitt Utilities, Inc., remains in discussions with the Kentucky Division of Water, the Bullitt County Sanitation District ("BCSD") and the Louisville and Jefferson Metropolitan Sewer District concerning various options to respond to the failure of the Hunters Hollow Wastewater Treatment Plant, which is the subject of the above referenced Application. These options include: 1) the construction of a new wastewater treatment plant ("WWTP") at the site of the failed WWTP as set forth in the current Application; 2) the construction of a new WWTP as a part of BCSD's sanitary sewer system; and, 3) the treatment of the wastewater generated by the Hunters Hollow collection by BCSD on a short term basis and by MSD on a long term basis. Since the resolution of these discussions could have a significant impact on the Application and any amendments that may need to be made to same, I am hereby requesting that Bullitt Utilities be provided with an extension of time until September 20, 2014, to respond to your request.

Thank you for your attention to this matter, and please let me know if I need to take any further action with respect to this matter at this time.

Yours truly,

Robert C. Moore
