RE: Case No. 2014-00266

Dear Sir,

Western Lewis- Rectorville Water and Gas District would like to request an extension for responding to the information requested.

Responses are as follows:

1. Records used to support water usage at the Treatment Plant for calendar year 2012 are not available. The Employees responsible for such paperwork are no longer employed by Western Lewis- Rectorville Water and Gas. The current plant operator and myself have no way of knowing what was used to do the 2012 monthly water loss reports. Water used to backwash at the plant is metered. We cannot find any paperwork to justify the 2012 water loss reports.
2. There are no records available to explain the flushing amounts reported on the 2012 water loss reports. As previously stated, the personnel that completed the reports are no longer employed by the District.
3. Records supporting the amount of water usage for fire protection or training is not available for the year 2012. Our local Fire Departments do not report their usage. I am assuming the usage reported was an educated guess.

Chad Clark

General Manager

Western Lewis- Rectorville Water and Gas Dist.
