Re: Western Rockcastle Water Association  
Case No. 2014-00288  
Information Request Time Extension

Dear Mr. Derouen:

I am assisting the Western Rockcastle Water Association as it pursues the above referenced increase in nonrecurring charges. The PSC issued an information request on October 9, 2014 and required that a response be submitted within 15 days. The information required is quite substantial and will take a rather extensive amount of effort to prepare. With the amount of information to be acquired it will most likely result in the Association being unable to meet the 15 day response timeline. Being as such, we are requesting a thirty (30) day extension to submit the requested information.

Should you have any questions or need additional information, please advise.

Sincerely,

A handwritten signature in blue ink that reads 'Deron S. Byrne'. The signature is fluid and cursive, with the first name 'Deron' being particularly prominent.

Deron S. Byrne, P.E.
