In the summer of 2006 our State Representative Tim Couch help to get money for Green Hills Water District for the Woodard Branch Project at the sum of \$250,000.00. Since then there has been more added to this amount being \$325,000.00 as of now.

At the time of this, Judge Joe Grishop said we would get water. But still no water. State Representative Tim Couch was still on board with us and helped to acquire money so it could not be used for anything else. We still have no water. Properties have been mined under all of us. Wells have been drilled. Still no water.

Green Hills Water District was so far in debt. We were told money could not be used to bail them out of debt. We were told that the money had to be used for the Woodard Branch Project only. Black Mountain Utilities District took over Green Hills Water District.

At a board meeting in March 2014, Bob Lee and Leo Miller told us all that we would get water. "Wheels turn slow but they do turn." Someone attends every board meeting that they have. In December 2014 Bob Lee made the commit that we would not get water.

I, Carold Craycraft, called State Representative Rick Nelson in November 2013 the first time. He said it was politics. He also said that if the water had been put in when this was first started that we would have enough money for the water project. In December 2014 I talked to State Representative Rick Nelson a second time and he said we would probably never get water.

I attended the board meeting in January 2015. Bob Lee told me that if we don't give this a brake that him and State Representative Rick Nelson would put the money in Evarts, Kentucky for water projects there. I asked if they could do that. He answered yes they can do almost anything they wanted to do. I told him that was wrong. That is the way we feel.

I also have a text message from Leo Miller on September 12, 2014 that water was on its way that he had talked to State Representative Rick Nelson. We still have no water.

Joe Grisop told me a long time ago that we would never get water. So far we haven't. Guess he was right.

All we are asking is that we get the water in 2015. Everyone needs water as well as electricity. Its not much to ask for since the money, or most of it, is already there.

Thank you very much.

Carold Craycraft

This is a petition for getting water for the Woodard Branch Project and the Dingo properties. The funds are available, or most of it. We need signatures and addresses of the ones desiring water put to their property.
