Re: Duke Energy Kentucky, Inc.  
Petition for Confidential Treatment received 3/30/12  
PSC Reference #: Admin. Case 387

Dear Mr. D'Ascenzo:

The Public Service Commission has received the Petition for Confidential Treatment you filed on March 30, 2012 on behalf of Duke Energy Kentucky, Inc. ("Duke") to protect certain information filed with the Commission as confidential pursuant to Section 7 of 807 KAR 5:001 and KRS 61.878. The information you seek to have treated as confidential is identified as being contained in its Responses to Commission Order dated October 7, 2005, and Commission Data Request dated June 25, 2009. The information is more particularly described as (Item 11): containing Duke's annual load/forecast, and scheduled outages and retirement of generating capacity during the current year and the following 4 years.

Your justification for having the Commission handle this material as confidential is that the public disclosure of the information would compromise Duke's competitive position in the industry, which would result in an unfair commercial advantage to its competitors.

Based on a review of the information and pursuant to KRS 61.878 and 807 KAR 5:001, Section 7, the Commission has determined that the information requested to be held confidential is of a confidential or proprietary nature, which if publicly disclosed would permit an unfair commercial advantage to Duke's competitors. Therefore, the information requested to be treated as confidential **meets the criteria for confidential protection** and will be maintained as a nonpublic part of the Commission's file in this case. The procedure for usage of confidential materials during formal proceedings may be found at Section 7(8) of 807 KAR 5:001.

If the information becomes publicly available or no longer warrants confidential treatment, Duke Energy Kentucky, Inc. is required by Section 8(9)(a) of 807 KAR 5:001 to inform the Commission so that the information may be placed in the public record.

Sincerely,

Jeff Derouen  
Executive Director
