Re: Administrative Case No. 387

Dear Mr. Kamuf:

Pursuant to the Commission's Order of March 29, 2004, in Administrative Case No. 387,¹ each jurisdictional electric generating utility is required to file annual resource information with the Commission. Big Rivers Electric Corporation ("Big Rivers") submitted this information on April 25, 2014.

Staff has reviewed the information and has several additional questions related to Item 7 of Big Rivers' April 25, 2014 filing. Those questions are noted below:

Provide the calculation of the 7.3 percent target reserve margin used for planning purposes. Include all necessary narrative descriptions of the steps in the calculation and the source of all data used in the calculation. When applying the 7.3 percent target reserve margin, does it refer to the reserve margin required at Big Rivers peak or coincident to MISO's peak?

The responses to these two questions should be provided by Monday, June 2, 2014.

If you have any questions feel free to contact Aaron Greenwell at 502-782-2563.

Sincerely,

Jeff Derouen,
Executive Director
