PUBLIC SERVICE
COMMISSION

Dear Mr. Derouen

In reference to Case Number 2011-00450 dated April 1, 2014, that requested utilities to re-submit the 2013 Outage Data Report with additional requirements and information outlined in the appendix section, Nolin RECC will not be able to comply with the due date of July 1, 2014. Due to an unforeseen retirement of the consultant that prepared the annual PSC outage report; Nolin has hired a new consulting company that is creating a new spreadsheet format that will meet the requirements outlined in the appendix section of Case Number 2011-00450. The new consultants have started from scratch and the effort has taken longer than expected. Due to these circumstances Nolin RECC is requesting a delay in submitting the outage report to September 1, 2014. If you have any question that I can assist with please let me know. Thank you for your attention in this matter.

Regards,

Greg Harrington
Engineering Superintendent
