*Re: Notice of the Indirect Transfer of Control of Flowroute CLEC Inc. to West Corporation*

Dear Ms. Pinson:

West Corporation (“West”) and Flowroute Inc. (“Flowroute”) hereby notify the Kentucky Public Service Commission (“Commission”) that the indirect transfer of control of Flowroute and Flowroute’s wholly owned subsidiary, Flowroute CLEC Inc. (“Flowroute CLEC”), to West, as described in our letter to the Commission dated June 29, 2018, and received by the Commission on July 2, 2018, was completed on August 15, 2018. As stated in our June 29 letter, Flowroute CLEC holds certificates of public convenience and necessity in Kentucky authorizing the provision of local exchange and intrastate long-distance service.<sup>1</sup>

---

<sup>1</sup> On June 5, 2014, Flowroute was authorized by the Commission to provide local exchange telecommunications and intrastate long-distance services in the State of Kentucky. *See* Competitive Local Exchange Carrier Certificate of Public Convenience and Necessity, Utility ID No. 5057130, Filing ID TFS2014-00334 (June 5, 2014) (granting authority to operate as a competitive local exchange carrier); Long Distance Carrier Certificate of Public Convenience and Necessity, Utility ID No. 5179710, Filing ID TFS2014-00335 (June 5, 2014) (granting authority to operate as an interexchange carrier) (collectively, the “Certificates”). The Certificates initially were issued to Flowroute LLC, but the Commission was notified on August 18, 2014, that the Company’s legal name was changed from Flowroute LLC to Flowroute Inc. The Commission acknowledged receipt of this notice by letter on September 26, 2014. By letter dated November 13, 2017, Flowroute requested Commission approval for a *pro forma* reorganization whereby Flowroute’s Certificates would be assigned to Flowroute CLEC. Flowroute and Flowroute CLEC were notified by the Commission via email on December 18, 2017, that “informational transfers that are transparent to customers such as this do not require KPSC approval.”
