In the Matter of

AN ADJUSTMENT OF RATES)
OF SOUTH GRAVES WATER)
DISTRICT)

CASE NO. 8513

O R D E R

In its Application filed May 10, 1982, South Graves Water District ("South Graves") stated that it has approved a remedial construction project to relieve an area of low water main pressure and that, in addition to the current cash shortage, the additional revenues are required to retire the proposed bond issue of \$71,000 to finance the construction project.

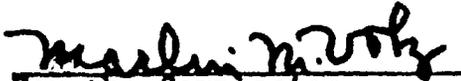

The Commission, having considered the matter and being advised, is of the opinion and finds that South Graves should file with the Commission an amended Application for authority to construct the proposed facilities and for approval of the necessary financing and that the proposed rate adjustment should be considered with the matters included in the amended Application.

IT IS THEREFORE ORDERED That South Graves file with the Commission an amended Application requesting a certificate of convenience and necessity to construct the facilities described in its Application and requesting approval of the related financing.

Done at Frankfort, Kentucky, this 29th day of June, 1982.
