O R D E R

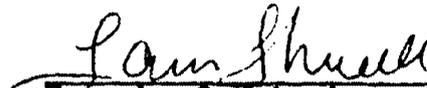

On January 26, 1983, Owens-Illinois, Inc. ("O-I"), by counsel, filed its Motion to Intervene in the above cases. Among other things the Motion states that the rate increases, if approved, will have a substantial impact on O-I and, accordingly, it has a direct interest in these proceedings which cannot be represented adequately by any other party. The Motion further states that as a customer of Salt River Rural Electric Cooperative Corporation, O-I recently received notice of the proposed rate increase in Case No. 8700, and since O-I does not purchase electricity directly from East Kentucky Power Cooperative, Inc. it was unaware of the proposed rate increase in Case No. 8648 until receipt of the public notice in Case No. 8700. 807 KAR 5:011, Section 8 requires that a motion to intervene shall be submitted within 30 days after receiving notice of a proposed rate change.

The Commission, having considered the Motion and being advised, is of the opinion and finds that good cause has been shown and that, pursuant to the provisions of 807 KAR 5:011, Section 13, a deviation from the 30 day requirement of Section 8 of the regulation should be permitted.

IT IS THEREFORE ORDERED That the Motion to Intervene be and it hereby is sustained.

Done at Frankfort, Kentucky, this 2nd day of February, 1983.
