RE: Weather Normalization Report - Case No. 2000-00080

Dear Ms. Stumbo:

Pursuant to the Commission's Order in Case No. 2000-00080, dated September 27, 2000, Louisville Gas and Electric files an original and four copies of the report on the experimental weather normalization adjustment (WNA) for the period November 2007 through April 2008. This report provides data that was required by the Commission in Appendix B to its order dated September 27, 2000.

In 2003, the WNA program was extended through April 30, 2006 by Commission Order in Case No. 2003-00357 dated October 30, 2003. The WNA program was expanded to include November, pursuant to a Commission Order dated June 30, 2004 in Case No. 2003-00433. On October 18, 2006, the Commission issued an order in Case No. 2006-00419 extending the WNA program through April 30, 2009.

This report demonstrates that LG&E billed customers a total of \$2,270,350 under the WNA during the period November 2007 through April 2008. This billing was due to the fact that actual heating degree days during the period were less than normal heating degree days.
