Symsonia Water and Sewer District Customers:

Due to the ever increasing cost of maintaining our community water and sewer services, the Symsonia Water District has filed for a rate increase with the Public Service Commission.

As you may recall, the rates have not increased since 1995 and since that time we have had many changes in water and sewer testing requirements as well as increases in products used to maintain the required level of water safety. As our system ages, we have had maintenance and replacement of equipment used to insure you of continued service. If the Public Service Commission approves this rate increase, we propose the effective date of the increase to begin July, 2005.

The following page lists the current and proposed rates and your rights as a consumer. We thank you for your continued service and if you have any questions please feel free to contact us.

Sincerely,

Keith Cooper, Chairman
Symsonia Water District Board
