Dear Sir:

In regards to Case Number 2006-00357, I would urge you to split the 270 area code when necessary to create more numbers. This would help all people when in stressful situations to not dial the wrong area code and create a more stressful situation like the "overlay" method could. Considering the amount of cell phone use of people driving, this would greatly enhance safety in our state and reduce the number of traffic accidents.

Thank you,
John Michael Dossett
