RE: Kentucky American Water, Case Number 2007-00134

Dear Ms. Rowles:

I am a resident of Rocky Branch Road, Franklin County, Frankfort, Kentucky and am requesting a copy of the maps associated with Kentucky American Water's application for a Certificate of Convenience and Necessity Authorizing the Construction of Kentucky River Station II, Associated Facilities and Transmission Main, case number 2007-00134.

I understand from our earlier conversation today that you will be copying 160 pages of maps from two booklets to compact disk.

I understand that since September 11, 2001, location data of critical utility structures is considered sensitive information for security reasons. I will not publish this map or any part of it on the World Wide Web. I will not redistribute this map to others, but shall refer requests by others for such information to the Kentucky Public Service Commission. I will give credit to the Kentucky Public Service Commission (PSC) and I will abide by the following data disclaimer: All information within the product is believed accurate but is not guaranteed without error. While attempts have been made to ensure the correctness of the information presented, neither the Kentucky Public Service Commission nor any party involved in the creation and compilation of the data guarantees their accuracy, completeness, or suitability for a particular use. All critical information should be independently verified.

Your assistance in this matter is greatly appreciated.

Sincerely,

Joe A. Palmore  
Resident
