TRANSMISSION MAIN )

CASE NO. 2007-00134

INTERVENTION PETITION OF  
THE KENTUCKY RIVER AUTHORITY

The Kentucky River Authority is authorized by KRS 151.700 through 151.730 to manage the surface water and ground water of the Kentucky River Basin.

Kentucky-American Water Company is proposing to build a water treatment plant that will use raw water from Pool 3 of the Kentucky River. The Kentucky River Authority is required by law to manage the water in the Kentucky River.

No other entity has the authority to manage the Kentucky River and we believe that we can assist the Public Service Commission in deciding this matter without complicating it or disrupting the proceedings and, therefore, ask for full intervention.
