PUBLIC SERVICE
COMMISSION

September 8, 2007

Dear Public Service Commission:

CASE # 2007-00134

People are mad at Kentucky American Water. People don't trust Kentucky American Water. Their representatives lie or tell half-truths. Municipalities that used to work with Kentucky American Water before it broke off from the Bluegrass Water Supply Commission are mad at Kentucky American (even though for political reasons they can't show it).

What have you heard negative about Louisville Water Company and their pipeline proposal? Let's go with who we trust. Let's go with Louisville Water Company.

Sincerely,

Elizabeth GreatHouse
