Dear Mr. Armstrong,

I urge you to reconsider the proposed increase in rates for LG & E at this time (Case #2008-00252). With our nation in an unprecedented economic crisis that affects everyone, it is hard to believe that a rate increase is a realistic burden to add to the people. At a time when we need to be tightening our budgets and evaluating unnecessary expenditures, the people are not able to consider their electric and gas an unnecessary expenditure that they can do without. Would you consider delaying your increase to allow time for the economy to stabilize? Thank you. Sincerely,

Coleen Carpenter
