

COMMONWEALTH OF KENTUCKY  
BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

PETITION OF VIRGIN MOBILE USA, L.P. FOR	)	CASE NO.
LIMITED DESIGNATION AS AN ELIGIBLE	)	2010-00524
TELECOMMUNICATIONS CARRIER	)	

O R D E R

On December 29, 2010, Virgin Mobile USA, L.P. ("Virgin Mobile"), a Commercial Mobile Radio Service provider, filed a petition under 47 U.S.C. § 214(e)(2) seeking designation as an Eligible Telecommunications Carrier ("ETC") to receive federal universal service support in Kentucky.<sup>1</sup> Virgin Mobile seeks ETC designation only for the purpose of participation in the Lifeline Program. Virgin Mobile does not seek high-cost support.

The petition states that: (1) Virgin Mobile meets all the requirements for designation as an ETC to serve the designated areas in the state of Kentucky;<sup>2</sup> (2) Virgin Mobile requests designation throughout each of the designated areas within its service coverage;<sup>3</sup> (3) in accordance with 47 U.S.C. § 214(e)(2), Virgin Mobile seeks to be designated as an ETC in rural and non-rural wirecenters;<sup>4</sup> and (4) designation of

<sup>4</sup> Id. at 4 and Exhibit A.

Virgin Mobile as an ETC for the designated areas served in Kentucky will serve the public interest.<sup>5</sup>

The Federal Communications Commission (“FCC”) previously designated Virgin Mobile as an ETC for the purposes of offering Lifeline services in the states of New York, North Carolina, Tennessee, and Virginia.<sup>6</sup> At that time, Virgin Mobile operated as a mobile virtual network operator (“MVNO”) and did not own any network facilities; therefore, Virgin Mobile had requested forbearance from enforcement from the Section 214(e)(1)(A) facilities-based requirement for ETC designation. The FCC conditioned the granting of the forbearance request and the ETC designation. These conditions were (a) providing Lifeline customers with 911 and enhanced 911 (“E911”) access immediately upon commencement of service and regardless of activation status or the availability of prepaid minutes; (b) offering E911-compliant handsets to new Lifeline customers upon activation of service and replacing any non-compliant handsets, at no additional charge, for existing customers who obtain Lifeline service; (c) obtaining a certification from each Public Safety Answering Point (“PSAP”) whose territory overlaps with Virgin Mobile’s Lifeline service area, confirming that the company provides its customers with 911 and E911 service or if, within 90 days of a request for certification, a PSAP has neither provided the certification nor affirmatively determined that Virgin Mobile does not provide its customers with access to 911 and E911, self-certifying that Virgin Mobile meets the 911 and E911 requirements; (d) requiring customers to self-certify under

<sup>5</sup> Id. at 13 -15.

<sup>6</sup> In the Matter of Virgin Mobile USA, L.P. Petition for Forbearance From 47 U.S.C. § 214(e)(1)(A); Petitions for Designation as an Eligible Telecommunications Carrier in the States of New York, North Carolina, Pennsylvania, Tennessee, and Virginia, Order, 24 FCC Rcd 3381 (rel. March 5, 2009).

penalty of perjury upon service activation and annually thereafter that they are the head of their household and receive Lifeline supported service only from Virgin Mobile; and, (e) establishing applicable safeguards to prevent its customers from activating multiple Lifeline accounts, including tracking each Lifeline customer's primary residential address.

In November 2009, Virgin Mobile was acquired by Sprint Nextel. At that time, Virgin Mobile became a facilities-based carrier because it was using the Sprint Nextel network to provide service. After the acquisition, Virgin Mobile was designated as a facilities-based ETC in the states of Florida, Indiana, Louisiana, Maryland, Michigan, Mississippi, New Jersey, Texas, Washington, and West Virginia.

Virgin Mobile has branded its prepaid Lifeline service "Assurance Wireless Brought To You By Virgin Mobile." The service will provide customers with the same features and functionalities enjoyed by all other Virgin Mobile prepaid Customers, with one notable exception: prepaid Lifeline services will be free of charge. Under the current plan, eligible customers will receive 250 anytime prepaid minutes per month at no charge with additional service priced at \$0.10/minute and \$0.10/text message. Virgin Mobile has also implemented new methods by which Lifeline customers, entirely at their option, can purchase blocks of additional service. Under the first new option, Lifeline customers can add \$5 to their account to purchase an additional 250 monthly minutes, providing them with a total of 500 voice minutes in a month (250 free minutes plus 250 additional minutes). Under the second option, Lifeline customers can add \$20 to their account to purchase an additional 750 voice minutes, providing them with a total of 1,000 voice minutes (250 free minutes plus 750 additional minutes). Customers

choosing this second option will also receive 1,000 monthly text messages. Customers are not obligated to purchase these additional offerings or add money to their accounts, and all eligible customers will continue to receive 250 free monthly minutes. Minutes and text messages do not carry forward from month-to-month. Only voice minutes and text messages purchased for \$0.10/unit will carry over from month-to-month when not used.

Lifeline customers will be able to access 911 emergency and customer care services regardless of whether they have any remaining minutes in their account. In addition, minutes used for calls placed to 911 emergency services and Virgin Mobile/Assurance Wireless customer care are not decremented from a customer's account. Lifeline customers will receive free service so long as they do not elect to exceed 250 minutes of voice service per month with no additional charges for taxes or activation.

New customers may elect to receive a free Assurance Wireless-branded handset with E911 functionality. Current Virgin Mobile customers will be able to use their existing handsets to receive prepaid Lifeline services or may elect to receive a free Assurance Wireless handset.

Virgin Mobile will implement measures to guard against potential fraudulent use of Lifeline service. Applicants for Lifeline service must provide their name, residential address, and relevant eligibility criteria. The enrollment form includes an applicant certification section where each applicant must attest and sign under penalty of perjury that the applicant receives Lifeline-supported service only from Virgin Mobile. As an additional protection against fraudulent use of the company's Lifeline services, Virgin

Mobile tracks each applicant's primary residential address and cross checks this information against internal databases to confirm that a Virgin Mobile lifeline account has not already been activated for that address or individual. If a name or address submitted by a Lifeline applicant is associated with a customer who already receives Virgin Mobile Lifeline service, or if the address provided is not a valid U.S. postal address, Virgin Mobile will review the application to ascertain whether the customer is attempting to activate multiple Virgin Mobile Lifeline accounts and, if so, deny the application.

Virgin Mobile will implement a non-usage policy in Kentucky. Under this policy, if a customer does not make a voice call or send a text message or otherwise demonstrate activity at least once during any continuous 60-day period, Virgin Mobile will promptly notify the customer that the customer is no longer eligible for Lifeline service subject to a 30-day grace period. During the 30-day grace period, the customer's account would remain active, and Virgin Mobile will engage in outreach efforts to determine whether the customer desires to remain on its Lifeline service. If the customer's account does not show any customer-specific activity during the grace period (such as making or receiving a voice call, receiving or sending a text message, downloading data, or adding money to the account), Virgin Mobile will deactivate Lifeline services for that customer. In addition, Virgin Mobile will not recover a federal USF subsidy for the free minutes provided to the customer during the grace period or thereafter report that customer on its Universal Service Administrative Company

(“USAC”) Form 497. Virgin Mobile has agreed that it will file this report of non-usage with the Commission.<sup>7</sup>

Virgin Mobile has stated in its responses to the Kentucky Public Service Commission’s (“Commission”) data requests that it does submit to the Commission the Kentucky USF fee and Kentucky Telecommunications Relay Service and Telecommunications Access Program fee for each customer although not billed directly to the customer because the customers do not receive bills.<sup>8</sup> Virgin Mobile also states that it does remit the statewide wireless 911 fee as prescribed in KRS 65.7635(1).<sup>9</sup>

Virgin Mobile, also in response to the Commission’s data requests, states that it will not be seeking funding from the Kentucky USF, nor will it be seeking reimbursement from the Federal USF for toll limitation service or Link-Up.<sup>10</sup>

On April 5, 2011, the Commission issued information requests to Virgin Mobile. Virgin Mobile filed its responses on May 2, 2011. The Commission finds that this matter is now ripe for a decision.

## DISCUSSION

Pursuant to 47 U.S.C. § 254(e), “only an eligible telecommunications carrier designated under 47 U.S.C. § 214(e) shall be eligible to receive specific federal universal service support.” Pursuant to 47 U.S.C. § 214(e)(1), a common carrier

---

<sup>7</sup> Virgin Mobile’s response to Commission Staff’s First Data Request No. 25.

<sup>8</sup> Id. at Request Nos. 5 and 6.

<sup>9</sup> Id. at Request No. 7.

<sup>10</sup> Id. at Request Nos. 12, 13, and 15.

designated as an ETC must offer and advertise the services supported by the federal universal service mechanisms throughout the designated service area.

Pursuant to 47 U.S.C. § 214(e)(2), state commissions bear the primary responsibility for performing ETC designations. Under the same section, the Commission may, with respect to an area served by a rural telephone company, and shall, in all other cases, designate more than one common carrier as an ETC for a designated service area, consistent with the public interest, convenience, and necessity, as long as the requesting carrier meets the requirements of 47 U.S.C. § 214(e)(1). Also, before designating an additional ETC for an area served by a rural telephone company, the Commission must determine that the designation is in the public interest.

As outlined in 47 C.F.R. § 54.201(d), an ETC petition must contain the following: (1) a certification that the petitioner offers or intends to offer all services designated for support by the Commission pursuant to 47 U.S.C. § 254(c); (2) a certification that the petitioner offers or intends to offer the supported services “either using its own facilities or a combination of its own facilities and resale of another carrier’s services”; (3) a description of how the petitioner “advertise[s] the availability of [supported] services and the charges therefore [sic] using media of general distribution”; and (4) if the petitioner meets the definition of a “rural telephone company” pursuant to 47 U.S.C. § 153(37), the petitioner must identify its study area; or, if the petitioner is not a rural telephone company, it must include a detailed description of the geographic service area for which it requests an ETC designation from the Commission.

### OFFERING THE SERVICES DESIGNATED FOR SUPPORT

Virgin Mobile has demonstrated through the required certifications and related filings that it now offers, or will offer upon designation as an ETC, the services supported by the federal universal service mechanism. Virgin Mobile certifies that it now provides or will provide throughout its designated service area the services and functionalities enumerated in 47 C.F.R. § 54.101(a). Virgin Mobile has also certified that, in compliance with 47 C.F.R § 54.405, it will make available and advertise Lifeline service to qualifying low-income consumers.

### OFFERING THE SUPPORTED SERVICES USING A CARRIER'S OWN FACILITIES

Prior to November 2009, Virgin Mobile was a non-facilities based MVNO. Subsequent to that date, Virgin Mobile was acquired by Sprint Nextel Corporation ("Sprint"). The FCC has found that Virgin Mobile, as a wholly owned affiliate of Sprint, now "owns" Sprint's facilities for the purposes of the facilities requirement in Section 214(e) of the Act.<sup>11</sup> Therefore the Commission agrees that Virgin Mobile is a facilities-based wireless telecommunications carrier which owns its switching, transport, cell sites, and associated telecommunications facilities in its proposed designated ETC service area.

Virgin Mobile states that it intends to provide the supported services using its existing network infrastructure. As discussed previously in this Order, 47 C.F.R. § 54.201(d) defines the requirements that a carrier must fulfill in order to be granted ETC

---

<sup>11</sup> In the Matter of Virgin Mobile USA, L.P. Petitions for Designation as an Eligible Telecommunications Carrier in the States of Alabama, Connecticut, Delaware, New Hampshire, and Washington D.C, Order, DA 10-2433. See at para. 15 (rel. Dec. 29, 2010).

status. Under section (d), the carrier must provide the supported services by “either using its own facilities or a combination of its own facilities and resale of another carrier’s services (including the services offered by another eligible telecommunications carrier).” The next section, 47 C.F.R. § 54.201(e), defines the term “facilities” to mean “any physical components of the telecommunications network that are used in the transmission or routing of the service that are designated for support pursuant to subpart B of this part.” 47 C.F.R. § 54.201(f) provides that “the term ‘own facilities’ includes, but is not limited to, facilities obtained as unbundled network elements pursuant to part 51 of this chapter, provided that such facilities meet the definition of the term ‘facilities’ under this subpart.”<sup>12</sup> The Commission finds that Virgin Mobile has demonstrated that it satisfies the requirement of 47 U.S.C. § 214(e)(1)(A) that it offers the supported services using either its own facilities or a combination of its own facilities and resale of another carrier’s services.

#### ADVERTISING SUPPORTED SERVICES

Virgin Mobile has demonstrated that it satisfies the requirement of 47 U.S.C. § 214(e)(1)(b) to advertise the availability of the supported services and the charges therefor using media of general distribution. In its petition, Virgin Mobile states that it will publicize the availability of Lifeline and Link-Up in a manner reasonably designed to reach those likely to qualify for those services, as required by 47 C.F.R. §§ 54.405(b) and 54.411(d). Virgin Mobile shall also advertise each of the supported services on a regular basis in newspapers, magazines, television, and radio, in accordance with 47 C.F.R. § 54.201(d)(2).

---

<sup>12</sup> See, e.g., 47 C.F.R. §§ 51.307–51.318, which outline the requirements for carrier access to and use of unbundled network elements.

## RURAL AND NON-RURAL STUDY AREAS

The FCC has previously found designation of additional ETCs in areas served by non-rural telephone companies to be in the public interest based upon a demonstration that the requesting carrier complies with the statutory eligibility obligations of 47 U.S.C. § 214(e)(1).<sup>13</sup>

### Rural Study Areas

In considering whether designation of Virgin Mobile as an ETC in areas served by rural telephone companies will serve the public interest, the Commission must consider whether the benefits of an additional ETC in such study areas outweigh any potential harm. In determining whether designation of a competitive ETC in a rural telephone company's service area is in the public interest, the Commission must weigh the benefits of increased competitive choice, the impact of the designation on the universal service fund, the unique advantages and disadvantages of the competitor's service offering, any commitments made regarding quality of telephone service, and the competitive ETC's ability to satisfy its obligation to serve the designated service areas within a reasonable time frame.

The Commission finds that Virgin Mobile's universal service offering will provide a variety of benefits to customers. For instance, Virgin Mobile has committed to provide customers access to telecommunications and data services when they do not have access to a wireline telephone. In addition, the mobility of Virgin Mobile's wireless service will provide benefits such as access to emergency services that can mitigate the

---

<sup>13</sup> See, e.g., Cellco Partnership d/b/a Bell Atlantic Mobile Petition for Designation as an Eligible Telecommunications Carrier, Memorandum Opinion and Order, CC Docket No. 96-45, 16 FCC Rcd 39 (2000).

unique risks of geographic isolation associated with living in rural communities. Moreover, Virgin Mobile states that it offers larger local calling areas than those of the Incumbent Local Exchange Carriers it competes against, which could result in fewer toll charges for Virgin Mobile's customers.

#### Public Interest Analysis

In determining whether the public interest is served, the burden of proof is upon the ETC applicant.<sup>14</sup> Virgin Mobile asserts that granting ETC designation to Virgin Mobile will provide consumers the benefits of value for their money, access to emergency services on wireless devices, and reliable means of contact for prospective employers, social service agencies, or dependents. Virgin Mobile also asserts that providing Lifeline service to those most in danger of losing wireless service promotes the public interest. Virgin Mobile has satisfied the burden of proof in establishing that its universal service offering in this area will provide benefits to rural consumers.

#### Designated Service Areas

The Commission finds that Virgin Mobile should be certified as an ETC in the requested service areas served by rural and non-rural telephone companies, as listed in the Appendix to this Order. For purposes of federal universal service obligations, a rural telephone company's study area is presumed to be its service area unless and until the FCC and state commission cooperatively establish a different service area definition for such company after considering the Federal-State Joint Board on Universal Service's

---

<sup>14</sup> See Highland Cellular Order 19 FCC Rcd at 6431, para. 20; Virginia Cellular Order, 19 FCC Rcd at 1574-75, para. 26.

("Joint Board") service area recommendations.<sup>15</sup> Therefore, if a state commission proposes to define a rural telephone company study area as something less than the company's entire service area, the state commission must consider and make findings with respect to each of the three Joint Board factors.

However, because Virgin Mobile is only requesting low income support, the Commission finds that the study areas of the affected rural telephone companies do not have to be redefined to match the licensed service area of the applicant.

#### ANNUAL CERTIFICATION AND VERIFICATION

Each year, Virgin Mobile will require each Lifeline subscriber to recertify their head of household status, certify that only one Lifeline discount is received at that household, and document their continued program eligibility for Lifeline in accordance with the annual Lifeline Certification and Verification for USAC that is due annually at the end of August and in accordance with Administrative Case No. 360.<sup>16</sup> The Commission finds that Virgin Mobile's plan to meet the annual certification and verification requirements is in accordance with the Commission's requirements.

The Commission, having reviewed the evidence of record and having been otherwise sufficiently advised, HEREBY ORDERS that:

1. Virgin Mobile is designated as an ETC for the exchanges of the non-rural and rural telephone companies identified in the Appendix to this Order.

---

<sup>15</sup> 47 U.S.C. § 214(e)(5); 47 C.F.R. § 54.207(b).

<sup>16</sup> Administrative Case No. 360, An Inquiry Into Universal Service and Funding Issues (Ky. PSC May 24, 2007).

2. During the current certification period, Virgin Mobile shall be eligible to receive federal Universal Service Fund support.

3. Virgin Mobile shall offer low-income universal support services to consumers in its service area.

4. Virgin Mobile shall offer these services using its own facilities or a combination of its own facilities and resale of another carrier's services, including the services offered by another ETC.

5. Pursuant to 47 C.F.R. § 54.201(i), Virgin Mobile shall be precluded from offering universal service support exclusively through the resale of another carrier's services.

6. Virgin Mobile shall advertise the availability of and charges for these services using media of general distribution.

7. Virgin Mobile shall comply with the Commission's annual certification process for Lifeline customers in accordance with the requirements of Administrative Case No. 360.<sup>17</sup>

8. A copy of this Order shall be served upon the FCC and the USAC.
