PUBLIC SERVICE
COMMISSION

**JACKSON PURCHASE ENERGY CORPORATION'S ANSWERS TO
COMMISSION STAFF'S SECOND INFORMATION REQUESTS**

1. Refer to the response to Item 1 of Commission Staff's First Information Request ("Staff's First Request").

a. Staff requested a revised Exhibit B to the application which included the revised current rates resulting from Case No. 2010-00512.¹ Jackson Purchase provided a revised Exhibit B as Exhibit 2 to its response. However, the current tariff provided in Exhibit 2 does not contain Jackson Purchase's revised current rates. Provide a revised Exhibit B to the application which includes a current tariff reflecting the revised current rates.

RESPONSE: The second revised Exhibit B to the application, which consists of the revised current rates resulting from Case No. 2010-00512 compared to the proposed new rates in PSC No. 8, Case No. 2011-00057, is attached hereto and incorporated herein by reference as Exhibit 1.

Witness: G. Kelly Nuckols, President and CEO.

b. Explain why the revised Exhibit B does not include Tariff Sheet No. 113, Schedule, G-1 – Renewable Resource Energy Service. Include Sheet No. 113 when providing revised Exhibit B requested in a. above.

¹ Case No. 2010-00512, An Examination of the Application of the Fuel Adjustment Clause of Jackson purchase Energy Corporation from July 17, 2009 through October 31, 2010 (Ky. PSC May 31, 2011).

RESPONSE: The second revised Exhibit B to the application, which consists of the revised current rates resulting from Case No. 2010-00512 compared to the proposed new rates in PSC No. 8, Case No. 2011-00057 and includes Tariff Sheet No. 113, Schedule, G-1 Renewable Resource Energy Service, is attached hereto and incorporated herein by references as Exhibit 1. Tariff Sheet No. 113 was inadvertently omitted in Jackson Purchase Energy Corporation's Answers to Commission Staff's First Information Requests, Exhibit 2.

Additionally, please see Exhibit 2, which consists of Tariff Sheet No. 113, Schedule, G-1 – Renewable Resource Energy Service as proposed in PSC No. 8, Case No. 2011-00057 and a comparison of the revised current rates resulting from Case No. 2010-00512, Sheet No. 111 compared to the proposed new rates in PSC No. 8, Case No. 2011-00057, Sheet No. 113, attached hereto and incorporated herein.

Witness: G. Kelly Nuckols, President and CEO.

2. Refer to the response to Item 3.b. of Staff's First Request. Exhibit 3 of the response contains the notice that was mailed to customers receiving service under Schedule, G-1 – Renewable Resource Energy Service. Confirm that the column labeled "Present Rates" contains the proposed rates and the column labeled "Proposed Rates" contains the present rates. If so, state whether Jackson Purchase plans to renotice the affected customers.

RESPONSE: Jackson Purchase Energy Corporation confirms the information in "Present Rates" and "Proposed Rates" was inadvertently transposed. Please see JPEC's Revised Response to 3b of the Commission Staff's First Information Requests filed on July 13, 2011. As stated in its Revised Response to 3.b. individual notices were resent to the

three (3) members who are currently utilizing this tariff. A copy of the revised letter to the affected members is attached hereto and incorporated herein by reference as Exhibit 3.

Witness: G. Kelly Nuckols, President and CEO.

3. Refer to the response to Item 4.a. of Staff's First Request. The response states that the explanation of the Non-Fuel Adjustment clause Purchase Power Adjustment is contained in Attachments A through D of the Pre-filed testimony of James R. Adkins. Provide the location of the explanation in Attachments A through D of Mr. Adkins' testimony.

RESPONSE: The explanation of the Non-Fuel Adjustment Clause Purchase Power Adjustment is not contained in Attachments A through D of Mr. Adkins testimony. Attachments A through D is an explanation of the impact of Big Rivers Electric Corporation ("BREC") adjustment of rates is on the rates of JPEC. The proposed Non-Smelter Non-FAC PPA rider is only applicable to non-smelter power sales and will flow through any charges or credits from Big Rivers made under this proposed rider. The rider has two sections. One section is applicable to energy sales made under JPEC's tariffs for non-direct served members. The present month's credit or charge will be based on BREC's amount for two months preceding the present month plus or minus any over or under adjustments. The second section of this proposed rider is applicable only to members served under BREC's Large Industrial Tariff or Large Industrial Expansion Tariff via direct delivery point. This section will provide for retail charges and credits that are the same as BREC's charges or credits since no lag or losses exist.

Witness: James R. Adkins

4. Refer to the response to Item 4.c. of Staff's First Request, Revised Attachment C.

a. Refer to page 2 of 8, Schedule C-1, Small Commercial Single Phase. The proposed customer charge is shown as \$10.67. Revised Exhibit A of the application (filed in response to Item 1 of Staff's First Request, Exhibit 1) shows the proposed customer charge for this class to be \$10.68. Provide the proposed customer charge for this class.

RESPONSE: The proposed customer charge is \$10.68. The amount listed in Attachment C of \$10.67 is a typographical error.

Witness: James R. Adkins

b. Refer to page 4 of 8, Schedule D, Commercial and Industrial Demand Less than 3,000 kW. Confirm that the billing adjustment of (\$442) is not reflected in the Total from Base Rates for the Proposed Revenue column, and that its inclusion would not affect the percentage increase to this class.

RESPONSE: The billing adjustment is not reflected and its inclusion would not effect the percentage increase to these rates.

Witness: James R. Adkins

Respectfully submitted,

RATES AND CHARGES
 SCHEDULE R – RESIDENTIAL

Applicability

Entire service territory.

Availability of Service

Available to all residential Members for use in the home and on the farm. Residential electric service is available for uses customarily associated with residential occupation, including lighting, cooking, heating, cooling, refrigeration, household appliances and other domestic purposes.

Residential rates are based on service to single family units and are not applicable to multi-family dwellings served through a single meter. Where two or more families occupy a residential building, JPEC may require as a condition precedent to the application of the residential rate that the wiring in the building be so arranged as to permit each family to be served through a separate meter. In those cases where such segregation of wiring would involve undue expense to the Member, at the Member's option in lieu of the foregoing, electric service rendered to a multi-family residential building through a single meter will be classified as commercial and billed on the basis of service to a Member at an appropriate non-residential rate.

If a separate meter is used to measure the consumption to remotely located buildings, such as garages, barns, pump houses, grain bins or other outbuildings, or facilities, such as electric fences, it will be considered a separate service and be billed as a separate service at the applicable non-residential rate.

Type of Service

Single phase, 60 cycle at available secondary service voltages.

Rates

Facilities Charge:	Per month	\$9.00	
All Energy:	Per kWh per month	\$0.072859	I

RATES AND CHARGES
 SCHEDULE C-1 – SMALL COMMERCIAL SINGLE PHASE

Applicability

Entire service territory.

Availability of Service

To general lighting and small power commercial loads served at single phase available voltage levels.

Service under this schedule will be limited to maximum loads not exceeding 25 kW. Service to existing Members with a maximum load exceeding 25 kW is restricted to those Members being billed under the rate schedule as of its effective date of June 25, 2008. New Members, upon demonstrating an average demand of 25 kW or greater, will be served under the appropriate rate schedule, other than this schedule.

Type of Service

Single phase, 60 cycle at available voltages.

Rates

Facilities Charge:	Per month	\$10.00	I
All Energy:	Per kWh per month	\$0.073869	I

Payment Terms

The above rates are net, the gross rates being five percent (5%) higher. In the event the current bill is not paid on or before the due date as shown on the bill, the gross rates shall apply to any unpaid portion.

 SCHEDULE C-1 – SMALL COMMERCIAL SINGLE PHASE

Adjustment Clauses

The bill amount computed at the rates specified above shall be increased or decreased in accordance with:

Franchise Fee Rider	Sheet 95	
School Tax	Sheet 97	T
Fuel Adjustment Clause (FAC)	Sheet 98	
Environmental Surcharge (ES)	Sheet 100	
Unwind Surcredit Adjustment Clause (USAC)	Sheet 102	
Rebate Adjustment (RA)	Sheet 104	
Member Rate Stability Mechanism (MRSM)	Sheet 106	
Rural Economic Reserve (RER)	Sheet 108	

Terms and Conditions

Service will be furnished under JPEC's Rules and Regulations applicable hereto.

Delivery Point

The point of delivery of electric energy shall be the connection between conductors furnished and installed by JPEC and the conductors furnished and/or installed by the Member. Normally, JPEC shall furnish a meter base to the Member, which shall be installed by the Member in the Member's service entrance facilities.

Primary Service

If service is furnished at JPEC's primary voltage, a primary discount shall not be applicable in order to offset JPEC's additional equipment costs of the primary metering installation. Primary metering installations shall be evaluated on an individual basis.

RATES AND CHARGES
 SCHEDULE I-E – LARGE COMMERCIAL AND INDUSTRIAL – EXISTING

- Member shall be served under this rate schedule as of the effective date of this schedule, June 25, 2008.
- Member's service characteristics shall meet the qualifications for service specified in the Big Rivers Large Industrial Customer Tariff.
- It shall be the responsibility of the Member to coordinate through JPEC or its authorized agent all transactions that JPEC must take on behalf of the Member pursuant to the Big Rivers Large Industrial Tariff.

Monthly Charges

Service Charge: Per month \$300.00
 Demand Charge: First 3,000 kW of billing demand per month \$34,500.00
 All additional kW per kW per month \$11.50
 All Energy: Per kWh per month \$0.027562

Minimum Monthly Charge

The minimum monthly charges under this rate shall be the sum of the monthly Service Charge (\$300.00) and \$34,500.00 where 3,000 kVA or less of transformer capacity is required. For Members requiring more than 3,000 kVA of transformer capacity, the minimum monthly charge shall be increased by \$1.00 for each kVA or fraction thereof required above 3,000 kVA. Where it is necessary to extend or reinforce facilities in excess of standard service facilities, the minimum monthly charge may be increased to assure adequate compensation for the added facilities of one and one-half percent (1 1/2%) per month of the total cost of the excess facilities as a facilities charge for which no power and energy would be delivered. Any applicable Adjustment Clause, and applicable taxes shall be in addition to the charges above.

Determination of Billing Demand

The billing demand, in kilowatts (kW), shall be the Member's maximum integrated thirty (30) minute demand at such delivery point during each billing period as determined by JPEC provided meter(s) which record at the end

 SCHEDULE L - LARGE COMMERCIAL AND INDUSTRIAL 3,000-5,000 kW

Delivery Point

Unless otherwise specified in the service agreement, the delivery point shall be the connection between conductors furnished and installed by JPEC and the conductors furnished and installed by the Member. All wiring, pole lines, and other equipment (except metering equipment) located on the load side of the delivery point shall be owned and maintained by the Member.

Facilities Charge

JPEC may provide facilities to fulfill the estimated or known average twelve (12) month billing demand of the Member. A monthly facilities charge, determined at time of execution of agreement between parties, shall be applied to any investment. The Member may elect to provide its own facilities and JPEC will not bill for any facilities charges.

Terms and Conditions

Service will be furnished under JPEC's Rules and Regulations applicable hereto.
 Compensating starting equipment may be required for all motors rated fifteen (15) horsepower or greater, and for smaller motors when specified by JPEC because of power line characteristics.

Adjustment Clauses

The bill amount computed at the rates specified above shall be increased or decreased in accordance with:
