O R D E R

Atmos Energy Corporation ("Atmos") filed its application in this matter with the Commission on June 14, 2011. In its application, Atmos requested that its current Weather Normalization Adjustment ("WNA") mechanism, which is in effect through October 31, 2011, be extended for three years, from November 1, 2011 through October 31, 2014. The Commission finds that Atmos's current WNA mechanism, with no change to any aspect of its calculation, should be approved for use on an interim basis pending a final Order in this proceeding.

IT IS THEREFORE ORDERED that Atmos shall continue to use its current WNA mechanism on an interim basis pending the Commission's final Order addressing the request for a three-year extension.
