Sup\_Gen\_Con\_SRF - 2013.doc

Mr. Byrne

The above referenced project was received by our division on September 25, 2012 and has since been reviewed for Technical Approval only. The application stated that there were no SPAP or DWSRF funds to be used for the project and the specifications did not include the required documents (Did Documents, Davis-Bacon, Supplemental General Conditions, etc...). Please complete the attached DWSRF Plans and Specs Checklist in comparison to the specifications to be submitted, to ensure that they are complete. We also require that you receive a Clear Site Certificate and submit that to the Division as well. Please feel free to contact me with any related questions. Thank you.

William Wright
