CONVENIENCE AND NECESSITY FOR ITS)	2014-00027
PIPELINE, CONSTRUCTION WORK PLAN IN)	
CLINTON COUNTY, KENTUCKY)	

COMMISSION STAFF'S NOTICE OF INFORMAL CONFERENCE

Commission Staff hereby gives notice that a telephonic informal conference will be held in the above-styled proceeding on Tuesday, June 10, 2014, at 3:00 p.m. Eastern Daylight Time, in Conference Room 1 of the Commission's offices at 211 Sower Boulevard, Frankfort, Kentucky, for the purpose of discussing, among other issues, the attached list of topics. Commission Staff will contact participants by electronic mail to provide details for attending the conference by telephone.

Jeff Derouen
Executive Director
Public Service Commission
P. O. Box 615
Frankfort, KY 40602

DATED JUN 09 2014

cc: Parties of Record

**TOPICS TO BE DISCUSSED AT THE
JUNE 10, 2014 INFORMAL CONFERENCE**

1. Paragraph 9 on page 5 of your application states that the project will be financed with a construction loan during the “build out” of the pipeline. Section 3.7 on page 8 of the Transportation Agreement with Keystone states that construction of the pipeline will take approximately 12 months after receiving all necessary authorizations.
 - a. Can you confirm that by the use of the term “build out” in the application is referring to the expected 12-month construction period?
 - b. Is there any reasonable expectation that the construction period may need to be extended by as much as an additional 12 months?
2. Clarify whether the Keystone pipeline will be operated as a dedicated pipeline, or whether it will be considered an “open access” pipeline that will be available for Navitas system expansion.
 - a. If the Keystone pipeline will not be operated as a dedicated pipeline, please state:
 1. The number of additional customers who will be able to access the pipeline;
 2. The identities of these customers; and
 3. The demand projections, in detail, for all customers who will be able to access the pipeline.
 - b. Explain whether the Keystone pipeline system is designed to handle any peaking demands from Keystone and any additional customers who will be able to access the pipeline.
3. Clarify whether Keystone will pay for the cost of its own commodity gas supply, including any transportation cost involved in transporting its gas to the Albany City Gate via East Tennessee and B&W pipelines.
4. Please submit the bid tabulations showing:
 - a. All bidders, specifying the identity of the winning bidder and the identity of the lowest bidder;
 - b. Bid items;
 - c. Itemized costs; and

d. Total cost of the project, including but not limited to:

1. Construction cost;
2. Contingencies;
3. Engineering fees;
4. Legal fees; and
5. Inspection fees.
