¹ Although Atmos tendered for filing an application for approval of a SDR on July 31, 2014, it was rejected for filing based on deficiencies related to the requirements of 807 KAR 5:001, Section 16. Atmos submitted an amended SDR application on September 30, 2014, which cured eight of the filing deficiencies and requested, pursuant to 807 KAR 5:001, Section 22, deviations from the remaining filing requirements. On October 15, 2014, the Commission granted Atmos's request for deviations and accepted its amended application for filing.

2. Unless a hearing is requested, this matter shall stand submitted on the record.
