RE: Morgan County Water District
Case No. 2016-0068

Dear Mr. Derouen:

The Morgan County Water District is in receipt of the PSC Staff Report for the above referenced project. We understand that a rate increase of 26.56% has been calculated by the PSC Staff. However, the Morgan County Water District feels a rate increase of this magnitude would be too large a burden for our customers. We would like to increase our rates by 15% as submitted in the initial application.

Please contact Kyle Risner if you need additional information. His electronic mail address is morganwater@gmail.com.

Sincerely,

Roy Collett, Chairman
Morgan County Water District
