THROUGH OCTOBER 31, 2016 )	

COMMISSION STAFF'S SECOND REQUEST FOR INFORMATION  
TO JACKSON ENERGY COOPERATIVE CORPORATION

Jackson Energy Cooperative Corporation ("Jackson Energy"), pursuant to 807 KAR 5:001, is to file with the Commission the original and seven copies of the following information, with a copy to all parties of record. The information requested herein is due within ten days of the date of this request. Responses to requests for information shall be appropriately bound, tabbed and indexed. Each response shall include the name of the witness responsible for responding to questions related to the information provided.

Each response shall be answered under oath or, for representatives of a public or private corporation or a partnership or association or a governmental agency, be accompanied by a signed certification of the preparer or the person supervising the preparation of the response on behalf of the entity that the response is true and accurate to the best of that person's knowledge, information, and belief formed after a reasonable inquiry.

Jackson Energy shall make timely amendment to any prior response if it obtains information which indicates that the response was incorrect when made or, though

correct when made, is now incorrect in any material respect. For any request to which Jackson Energy fails or refuses to furnish all or part of the requested information, it shall provide a written explanation of the specific grounds for its failure to completely and precisely respond.

Careful attention shall be given to copied material to ensure that it is legible. When the requested information has been previously provided in this proceeding in the requested format, reference may be made to the specific location of that information in responding to this request. When applicable, the requested information shall be separately provided for total company operations and jurisdictional operations. When filing a paper containing personal information, Jackson Energy shall, in accordance with 807 KAR 5:001, Section 4(10), encrypt or redact the paper so that personal information cannot be read.

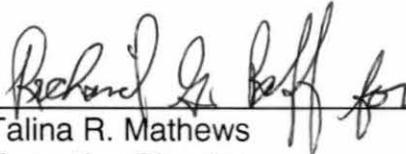

1. Refer to Jackson Energy's response to Commission Staff's February 6, 2017 Request for Information ("February 6, 2017 Request"), Item 1.

a. Explain why the information provided for each month does not reconcile to the same month in the monthly fuel adjustment clause ("FAC") filings. For example, the last month shown on Exhibit 1A is labeled as the month of September 2016; however, the information included in that row matches the kWh amounts in the FAC filing for the month of November 2016, a month which is outside of the two-year review period.

b. Confirm that the information shown in Exhibit 1A for the row labeled as August 2016 is the same information that appears in the FAC filing for the month of

October 2016 (the last month of the two-year review period) and that the 12-month line loss calculation is shown as 7.78 percent. If this cannot be confirmed, explain.

2. Refer to Jackson Energy's response to the February 6, 2017 Request, Items 3–5. Revise these responses using a line loss of 7.78 percent rather than 7.37 percent to calculate the change in base fuel costs.
