Kentucky Utilities Company ("KU") pursuant to 807 KAR 5:001, is to file with the Commission the original and three copies of the following information, with a copy to all parties of record. The information requested herein is due on or before June 1, 2017. Responses to requests for information shall be appropriately bound, tabbed and indexed. Each response shall include the name of the witness responsible for responding to the questions related to the information provided.

Each response shall be answered under oath or, for representatives of a public or private corporation or a partnership or association or a governmental agency, be accompanied by a signed certification of the preparer or person supervising the preparation of the response on behalf of the entity that the response is true and accurate to the best of that person's knowledge, information, and belief formed after a reasonable inquiry.

KU shall make timely amendment to any prior response if it obtains information which indicates that the response was incorrect when made or, though correct when made, is now incorrect in any material respect. For any requests to which KU fails or

refuses to furnish all or part of the requested information, it shall provide a written explanation of the specific grounds for its failure to completely and precisely respond.

Careful attention should be given to copied material to ensure that it is legible. When the requested information has been previously provided in this proceeding in the requested format, reference may be made to the specific location of that information in responding to this request. When applicable, the requested information shall be separately provided for total company operations and jurisdictional operations. When filing a paper containing personal information, KU shall, in accordance with 807 KAR 5:001, Section 4(10), encrypt or redact the paper so that personal information cannot be read.

1. Explain why the boundary change is being requested.
2. KU states in the application, page 2, paragraph 4, that it will “continue to serve the Wells’ property and will provide new service to the Redmon property.” Provide a copy of the written agreement under which KU is currently providing service to the Wells’ property, and if no such written agreement exists, an explanation as to why KU is currently providing service to the property.
3. KU submitted two maps with its application, a large map which indicates that it is a territorial map reconfirmed by the parties in 1982, and a smaller map titled “Drawing name: Redmon” in the lower right corner. Provide a more detailed explanation as to what the smaller of the two maps represents in relation to the larger one.
