Re: Administrative Case No. 387

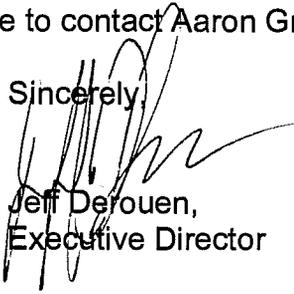

Dear Mr. Staton:

Pursuant to the Commission's Order of March 29, 2004, in Administrative Case No. 387,¹ each jurisdictional electric generating utility is required to file annual resource information with the Commission. In a letter dated May 31, 2013, Louisville Gas and Electric Company ("LG&E") and Kentucky Utilities Company ("KU") were requested to provide a detailed discussion of the consideration given to price elasticity in forecasted demand, energy and reserve margin information with the Annual Admin 387 resource assessment. Additionally, we asked that LG&E and KU continue to provide the elasticity information as a supplement to the information annually required by the Admin 387 Order.

It does not appear that LG&E and KU provided this information with the resource assessment submitted on April 9, 2014. If a detailed discussion of the consideration given to price elasticity has been included, please indicate exactly where that discussion is located. Otherwise, please submit the requested information by Monday, June 2, 2014.

If you have any questions feel free to contact Aaron Greenwell at 502-782-2563.

Sincerely,

Jeff Derouen,
Executive Director
