

74.407 Operation of sewage disposal systems.

In addition to the other authority which water districts presently have under this chapter, water districts are hereby authorized to acquire, develop, maintain and operate sewage disposal systems within the confines of their respective districts except that such sewer systems shall not include territory within the boundaries of existing municipal corporations having the authority to provide such sewer services without the consent of such municipal corporations. In the event of annexation of territory within a water district by another municipal corporation authorized to provide sewer systems and services, the water district may continue to provide and charge for sewer services within such newly annexed areas until such annexing municipal corporation makes adequate payment, by negotiation or condemnation, for such sewage disposal facilities owned and operated by the water district. The water district commissioners shall have all of the powers and authority, as regards sewer systems that are conferred upon them for the purpose of furnishing a water supply under KRS 74.010 to 74.415.
