Re: Administrative Regulation 807 KAR 5:006. General Rules.

Dear Senator Bowen and Representative Bell:

After discussions with Administrative Regulation Review Subcommittee Staff of the issues raised by Administrative Regulation 807 KAR 5:006, the Public Service Commission proposes the attached amendment to 807 KAR 5:006.

Sincerely,

Gerald E. Wuetcher  
Executive Advisor/Attorney

gw  
Attachment

**Suggested Amendment**  
**ENERGY AND ENVIRONMENT CABINET**  
**Public Service Commission**

**807 KAR 5:006. General rules.**

**Page 1**

**TITLE**

**Line 4**

After “5:006. General”, lowercase the first letter of “Rules”.

**Page 1**

**RELATES TO**

**Line 5**

After “RELATES TO: KRS”, insert “65.810, 74, 96.934, 220.510,”.  
Delete “Chapter”.

**Page 1**

**STATUTORY AUTHORITY**

**Line 6**

After “49 C.F.R.”, delete “Part”.

**Page 1**

**NECESSITY, FUNCTION, AND CONFORMITY**

**Lines 7 through 13**

After “KRS 278.230(3)”, insert the following:  
requires every utility to file with the commission reports, schedules, and other information that the commission requires. KRS 278.280(2) requires the commission to promulgate an administrative regulation for the performance of a service or the furnishing of a commodity by a utility. This administrative regulation establishes requirements that apply to electric, gas, water, sewage, and telephone utilities.

Delete the remainder of the NECESSITY, FUNCTION, AND CONFORMITY paragraph in its entirety.

**Page 1**

**Section 1(1)**

**Line 15**

After “(1) “”, insert “Built-up”.  
Delete “Built up”.

**Page 1**

**\*General Reviewer’s Note:** File one (1) copy of the revised SUMMARY OF MATERIAL INCORPORATED BY REFERENCE, paginated beginning on page 88, in conjunction with filing this suggested amendment. Additionally, file one (1) copy of each of the forms in the amended Section 29(1)(d) and (e), for a total of six (6) forms.

## **SUMMARY OF INCORPORATED MATERIAL**

### **Annual Financial and Statistical Reports**

(1) “FERC Form-1” - Annual Report of Major Electric Utilities, Licensees and Others (Mar. 2007). 18 C.F.R. § 141.1 requires all major electric utilities, licensees and others to file a FERC Form-1 annually with the Federal Energy Regulatory Commission (“FERC”). A major electric utility is an electric utility that has in each of the three previous calendar years, sales or transmission service that exceeds one million megawatt hours of total annual sales, or 100 megawatt hours of annual sales for resale, or 500 megawatt hours of annual power exchanges delivered, or 500 megawatt hours of annual wheeling for others (deliveries plus losses). This report is designed to collect financial and operational information from electric utilities, licensees and others subject to FERC jurisdiction. It is 134 pages in length. All investor-owned utilities subject to the regulation of the Public Service Commission must file this report with the FERC. KRS 278.230(3), which supports the use of this form, provides: “Every utility, when required by the commission, shall file with it any reports, schedules, classifications or other information that the commission reasonably requires.”

(2) Annual Reporting Form for Rural Electric Cooperative Corporations (July 2012) is a thirty-eight (38) page form that each rural electric cooperative corporation subject to Public Service Commission must file annually with the Commission. It is designed to collect financial and operational information about the rural electric cooperative corporation. KRS 278.230(3), which supports the use of this form, provides: “Every utility, when required by the commission, shall file with it any reports, schedules, classifications or other information that the commission reasonably requires. The commission shall prepare and distribute to the utilities blank forms for any information required under this chapter.”

(3) “FERC Form-2” - Annual Report of Major Natural Gas Companies (Dec. 2007). 18 C.F.R. §§ 260.1 and 260.2 requires each major natural gas company, that is a natural gas company whose combined gas transported or stored for a fee exceed 50 million dekatherms in each of the previous three years to submit a FERC Form-2 annually with the Federal Energy Regulatory Commission (“FERC”). This report is designed to collect financial and operational information from natural gas companies subject to FERC jurisdiction. It is 143 pages in length. The six largest natural gas local distribution utilities that are subject to the Public Service Commission’s jurisdiction are required to file this report with the FERC. KRS 278.230(3), which supports the use of this form, provides: “Every utility, when required by the commission, shall file with it any reports, schedules, classifications or other information that the commission reasonably requires.”

(4) Annual Reporting Form for Class C and D Gas Utilities (Aug. 2005) is a twenty-four (24) page form that a natural gas utility that has less than one million dollars in annual gas operating revenues must file annually with the Public Service Commission. The form is designed to collect financial and operational information about the natural

gas utility. KRS 278.230(3), which supports the use of this form, provides: “Every utility, when required by the commission, shall file with it any reports, schedules, classifications or other information that the commission reasonably requires. The commission shall prepare and distribute to the utilities blank forms for any information required under this chapter.”

(5) Annual Reporting Form for Local Exchange Carriers (Aug. 2005) is a thirty-two (32) page form that all local exchange carriers that have not opted out of Public Service Commission jurisdiction must file annually. It is designed to collect financial and operational information about the local exchange carrier. KRS 278.230(3), which supports the use of this form, provides: “Every utility, when required by the commission, shall file with it any reports, schedules, classifications or other information that the commission reasonably requires. The commission shall prepare and distribute to the utilities blank forms for any information required under this chapter.”

(6) Annual Reporting Form for Local Exchange Carriers – Kentucky Operations Only (Aug. 2004) is a twelve (12) page form that all local exchange carriers that have not opted out of Public Service Commission jurisdiction must file annually. It is designed to collect Kentucky specific financial and operational information about the local exchange carrier. KRS 278.230(3), which supports the use of this form, provides: “Every utility, when required by the commission, shall file with it any reports, schedules, classifications or other information that the commission reasonably requires. The commission shall prepare and distribute to the utilities blank forms for any information required under this chapter.”

(7) Annual Reporting Form for Water Company – Class A & B (July 2012) – is a forty-four (44) page form that all privately owned water companies that have \$250,000 or more of annual water operating revenues and 400 or more customers must file annually. It is designed to collect financial and operational information about the water utility. KRS 278.230(3), which supports the use of this form, provides: “Every utility, when required by the commission, shall file with it any reports, schedules, classifications or other information that the commission reasonably requires. The commission shall prepare and distribute to the utilities blank forms for any information required under this chapter.”

(8) Annual Reporting Form for Water Company – Class C (July 2012) is a thirty-six (36) page form that all privately owned water companies that have less than \$250,000 of annual water operating revenues or less than 400 customers must file annually. It is designed to collect financial and operational information about the water utility. KRS 278.230(3), which supports the use of this form, provides: “Every utility, when required by the commission, shall file with it any reports, schedules, classifications or other information that the commission reasonably requires. The commission shall prepare and distribute to the utilities blank forms for any information required under this chapter.”

(9) Annual Reporting Form for Water Districts/Water Associations – Class A & B (July 2012) is a forty (40) page form that all water districts and water associations that

have \$250,000 or more of annual water operating revenues and 400 or more customers must file annually. It is designed to collect financial and operational information about the water utility. KRS 278.230(3), which supports the use of this form, provides: “Every utility, when required by the commission, shall file with it any reports, schedules, classifications or other information that the commission reasonably requires. The commission shall prepare and distribute to the utilities blank forms for any information required under this chapter.”

### **Non-payment Disconnection/Reconnection Reports**

(1) Water Utility- Non-Payment Disconnection/Reconnection Report (Feb. 2012) is a one (1) page report that each water utility must file annually. The form is designed to gather information of the number of accounts terminated. The form also collects information on the highest dollar amount owed that was terminated, the lowest amount owed and the number of accounts that were reinstated. KRS 278.230(3), which supports the use of this form, provides: “Every utility, when required by the commission, shall file with it any reports, schedules, classifications or other information that the commission reasonably requires. The commission shall prepare and distribute to the utilities blank forms for any information required under this chapter.”

(2) Electric Utility- Non-Payment Disconnection/Reconnection Report (Sep. 2000) is a one (1) page report that each electric utility must file annually. The form is designed to gather information of the number of accounts terminated. The form also collects information on the highest dollar amount owed that was terminated, the lowest amount owed and the number of accounts that were reinstated. KRS 278.230(3), which supports the use of this form, provides: “Every utility, when required by the commission, shall file with it any reports, schedules, classifications or other information that the commission reasonably requires. The commission shall prepare and distribute to the utilities blank forms for any information required under this chapter.”

(3) Gas Utility- Non-Payment Disconnection/Reconnection Report (Sep. 2000) is a one (1) page report that each gas utility must file annually. The form is designed to gather information of the number of accounts terminated. The form also collects information on the highest dollar amount owed that was terminated, the lowest amount owed and the number of accounts that were reinstated. KRS 278.230(3), which supports the use of this form, provides: “Every utility, when required by the commission, shall file with it any reports, schedules, classifications or other information that the commission reasonably requires. The commission shall prepare and distribute to the utilities blank forms for any information required under this chapter.”

## **Meter Testing**

(1) Application for Appointment of Meter Tester (August 2012) is a two (2) page report that a utility, firm, or individual must complete for certification of an individual or employee as a meter tester. The form collects information regarding the utility or firm seeking the certification and the competency of the person to be certified. KRS 278.210 authorizes the Public Service Commission provide for the examination and testing of meters and meter testing devices and personnel.

## **Gross Annual Operating Revenue Reports**

(1) “Report of Gross Operating Revenues Derived from Intra-Kentucky Business”, December 2010. KRS 278.140 provides that each utility must file with the Public Service Commission on or before March 31 of each year a report of its gross earnings or receipts derived from intrastate business for the preceding year. This form, which consists of one page, provides the format for the statutory required report that most utilities must use.

(2) “Report of Gross Operating Revenues Derived from Intra-Kentucky Business Electric Utilities”, October 2012. KRS 278.140 provides that each utility must file with the Public Service Commission on or before March 31 of each year a report of its gross earnings or receipts derived from intrastate business for the preceding year. This form, which consists of two pages, provides the format for the statutory required report for electric utilities. The second page of the form requires a reporting of a retail electric supplier’s wholesale power cost purchases. It is intended to carry out the requirements of KRS 278.150(1) that provides that one-half of a retail electric supplier’s purchases from a wholesale power supplier that is subject to an assessment for the maintenance of the Public Service Commission will be exempted from assessment.

(3) “Report of Gross Operating Revenues Derived from Intra-Kentucky Business Long Distance Carriers and Operator Services”, September 2010. KRS 278.140 provides that each utility must file with the Public Service Commission on or before March 31 of each year a report of its gross earnings or receipts derived from intrastate business for the preceding year. This form, which consists of two pages, provides the format for the statutory required report that long distance carrier and operator services utilities must use. It contains guidance on the types of calls that are considered intrastate sales and requires a reconciliation of all revenue, both jurisdictional and non-jurisdictional.

(4) “Report of Gross Operating Revenues Derived from Intra-Kentucky Business Paging and Cellular”, September 2010. KRS 278.140 provides that each utility must file with the Public Service Commission on or before March 31 of each year a report of its gross earnings or receipts derived from intrastate business for the preceding year. This form, which consists of one page, provides the format for the statutory required report that cellular and paging utilities must use. It contains guidance on the types of calls that are considered intrastate sales.

(5) “Report of Gross Operating Revenues Derived from Intra-Kentucky Business Local Exchange Carriers and Competitive Local Exchange Carriers”, September 2010. KRS 278.140 provides that each utility must file with the Public Service Commission on or before March 31 of each year a report of its gross earnings or receipts derived from intrastate business for the preceding year. This form, which consists of three pages, provides the format for the statutory required report for local exchange carriers and competitive local exchange carriers. It contains guidance on the types of calls that are considered intrastate sales and requires a reconciliation of all revenue, both jurisdictional and non-jurisdictional, and some general information regarding the carrier’s operations.
