In the Matter of:

THE NOTICE OF PURCHASED GAS)
ADJUSTMENT FILING OF PENDLETON) CASE NO. 8568-A
COUNTY WATER DISTRICT, GAS)
DIVISION)

O R D E R

On December 8, 1982, the Commission issued its Order in Case No. 8568 approving certain adjustments in rates and providing under certain conditions for the further adjustment of such rates when the wholesale cost of gas is increased or decreased.

On December 10, 1982, Pendleton County Water District, Gas Division, ("Pendleton") notified the Commission that its wholesale cost of gas would be increased by its supplier, Columbia Gas Transmission Corporation ("Transmission"), effective January 1, 1983, and submitted with its notice certain information in compliance with this Commission's Order of December 8, 1982.

Pendleton's increase from Transmission is another one of those federally-mandated pass-throughs of higher gas prices in which upon the record this Commission has no discretion. Pendleton will not realize even one cent of profit but simply will turn over to its supplier the increased amount which it must collect from its consumers.

After reviewing the notice filed in this case and being advised, the Commission is of the opinion and finds that:

(1) Pendleton's notice of December 10, 1982, set out certain revisions in rates which Pendleton proposed to place into effect, said rates being designed to pass on the wholesale increase in price from its supplier in the amount of \$54,367 or 18.77 cents per Mcf.

(2) The Public Service Commission is being asked to authorize a pass-through of a price increase already approved by the Federal Energy Regulatory Commission ("FERC"). Failure to allow this increase to be passed through to its retail consumers on a timely basis would be unfair and unjust to Pendleton and would ultimately result in higher rates to its consumers. The Commission has (in writing) indicated its opposition to the procedures and regulations used by FERC since 1975 to approve these supplier increases.

We are also actively presenting our views to FERC and to our Kentucky Congressional delegation concerning revisions to the Natural Gas Policy Act formulas allowing producers to so raise their prices and because of the action of FERC in allowing such increases to pass through to the transmission company and through it to the distributing company, in this case Pendleton, this Commission has no real authority in the matter. Under federal law and actions, this Commission serves merely as the conduit for the final pass-through of the increased cost of gas to the consumers when, as here, the distributing utility makes no profit from the

increased prices which it must pay for gas purchased from the transmission company.

(3) The proposed rates will allow Pendleton to recover only the increased cost of wholesale gas and will not permit it to make any profit in doing so. The magnitude of this filing exposes Pendleton to substantial under-recovery of its gas costs if the rates are not implemented in a timely manner.

(4) Pendleton's adjustment in rates under the purchased gas adjustment provisions approved by the Commission in its Order in Case No. 8568 dated December 8, 1982, is fair, just and reasonable, in the public interest and should be effective with gas supplied on and after January 1, 1983, subject to refund.

IT IS THEREFORE ORDERED that the purchased gas adjustment sought by Pendleton be and it hereby is authorized to be effective with gas supplied on and after January 1, 1983, subject to refund.

IT IS FURTHER ORDERED that for the purpose of the future application of the purchased gas adjustment clause of Pendleton the base rate for purchased gas shall be:

	<u>Commodity</u>
Columbia Gas Transmission Corporation	
Schedule SGS	\$4.6605 per mcf
Columbia LNG Corporation	6.0801* per mcf
*Includes Transportation Charge of \$0.4701	

IT IS FURTHER ORDERED that within 30 days after the date of this Order Pendleton shall file with this Commission

its revised tariff sheets setting out the rates authorized
herein.
